SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-XXXX.

Title: Sections 80.385, 80.475, and 90.303, Automated Marine Telecommunications Service (AMTS).

Form No.: N/A.

Type of Review: Existing collection in use without OMB control number.

Respondents: Individuals or households and businesses or other for-profit.

Number of Respondents: 20.

Estimated Time Per Response: .50 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Total Annual Burden: 10 hours.

Total Annual Cost: N/A.

Needs and Uses: The reporting requirements are necessary to require licensees of Automated Maritime Telecommunications System (AMTS) stations to notify TV stations and two organizations (the American Radio Relay League (ARRL), and Interactive Systems, Inc.) that maintain databases of AMTS locations for the benefit of amateur radio operators of the location of AMTS fill-in stations. Amateur radio operators use some of the same frequencies (219-220 MHz) as AMTS stations on a secondary, non-interference basis for digital message forwarding systems. Reporting requirements are necessary to require amateurs proposing to operate within close proximity of an AMTS station to notify the AMTS licensee as well as the ARRL. The information is used to update databases concerning AMTS locations for the benefit of amateur radio operators. If the collection of this information was not conducted, the database would become inaccurate and the ability to avoid interference problems would deteriorate.
