FOR FURTHER INFORMATION CONTACT:

Peggy Vyas, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202–566–0453; email address: vyas.peggy@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov. For further information and updates on EPA Docket Center services, please visit us online at <https://www.epa.gov/dockets>. The telephone number for the Docket Center is 202–566–1744.

Abstract: In order for a State to obtain final authorization for a State hazardous waste program or to revise its previously authorized program, it must submit an official application to the EPA Regional office for approval. The purpose of the application is to enable the EPA to properly determine whether the State’s program meets the requirements of § 3006 of RCRA. A State with an approved program may voluntarily transfer program responsibilities to EPA by notifying the EPA of the proposed transfer, as required by section 271.23. Further, the EPA may withdraw a State’s authorized program under section 271.23.

State program revision may be necessary when the controlling Federal or State statutory or regulatory authority is modified or supplemented. In the event that the State is revising its program by adopting new Federal requirements, the State shall prepare and submit modified revisions of the program description, Attorney General’s statement, Memorandum of Agreement, or such other documents as the EPA determines to be necessary. The State shall inform the EPA of any proposed modifications to its basic statutory or regulatory authority in accordance with section 271.21. If a State is proposing to transfer all or any part of any program from the approved State agency to any other agency, it must notify the EPA in accordance with section 271.21 and submit revised organizational charts as required under section 271.6, in accordance with section 271.21. These paperwork requirements are mandatory under § 3006(a). The EPA will use the

information submitted by the State in order to determine whether the State’s program meets the statutory and regulatory requirements for authorization.

Form Numbers: None.

Respondents/affected entities: State/territorial governments.

Respondent’s obligation to respond: Mandatory (RCRA § 3006(a)).

Estimated number of respondents: 50.

Frequency of response: Annual.

Total estimated burden: 10,794 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$427,536 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase in annual burden for this renewal of 798 hours. The reason for this increase is an increase in the number of revision applications from 6 to 7. EPA expects that a greater number of states will seek to revise their authorization and receive approval from EPA due greater emphasis on increasing authorization progress and recent high profile rulemakings.

Courtney Kerwin,

Director, Regulatory Support Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Industrial, Commercial, and Institutional Boilers Area Sources (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Industrial, Commercial, and Institutional Boilers Area Sources (EPA ICR Number 2253.05, OMB Control Number 2060–0668) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently

approved through April 30, 2022. Public comments were previously requested via the **Federal Register** on April 13, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before April 18, 2022.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2021–0121, online using www.regulations.gov (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 2821T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Muntasir Ali, Sector Policies and Program Division (D243–05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541–0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov> or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: Owners and operators of new or existing industrial, commercial,

or institutional boilers are required to comply with reporting and record keeping requirements for the general provisions of 40 CFR part 63, subpart A, as well as the applicable specific standards in 40 CFR part 63 subpart JJJJJJ. This includes submitting initial notifications, performance tests, biennial tune-ups, and periodic compliance reports and results, maintaining records of fuel usage, and any period during which the control system is inoperative. These reports are used by EPA to determine compliance with the standards.

Form Numbers: 5900–568.

Respondents/affected entities:

Owners and operators of new or existing industrial, commercial, or institutional boilers.

Respondent's obligation to respond:

Mandatory (40 CFR part 63, subpart JJJJJJ).

Estimated number of respondents: 64,344 (total).

Frequency of response: Initially, annually, biennially.

Total estimated burden: 1,140,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$214,000,000 (per year), includes \$78,700,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease in burden from the most recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to several considerations. The primary reason for the decrease in burden is a decrease in the estimated number of respondents using liquid-fueled boilers. U.S. Energy Information Administration data indicates the consumption of fuel oil in the commercial sector has decreased by 33 percent in the past 9 years and is anticipated to decrease by 1 percent per year for the next three years. This ICR assumes that this decrease in consumption corresponds to an equivalent decrease in the number of small and large boilers firing liquid fuels and adjusts the number of small liquid-fired and large liquid-fired boilers and respondents accordingly. This ICR assumes that, due to the decrease in respondents over the past nine years, no new liquid-fired boilers were constructed during that time period. The decrease in the estimated number of respondents firing liquid fuels resulted in a decrease in labor burden for the small and large liquid-fired categories. The estimated decrease in the number of respondents firing liquid fuels also results in a decrease of the number of liquid-fired sources required to do periodic stack testing and

operate ESPs. This results in a significant decrease in periodic stack testing and O&M costs for large liquid-fired boilers constructed since the rule was promulgated in June 2010. This ICR assumes that growth in the small and large solid-fueled categories will continue according to past trends. The increase in the estimated number of respondents firing solid fuels resulted in an increase in labor burden and capital/O&M costs for the small and large solid-fired categories. This ICR also corrects mathematical errors in the calculation of O&M costs for respondents firing solid fuels and required to perform triennial stack testing for Hg, CO, and PM. This correction results in an increase of capital and O&M costs. However, the overall results of the adjustments to this ICR is a decrease in burden and capital and O&M costs.

Courtney Kerwin,

Director, Regulatory Support Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Management Standards for Hazardous Waste Pharmaceuticals (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Management Standards for Hazardous Waste Pharmaceuticals (EPA ICR Number 2486.03, OMB Control Number 2050–0212) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through May 31, 2022. Public comments were previously requested via the **Federal Register** on October 12, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.
