

inspection is scheduled to take place the week of March 29, 2004.

EPA has placed a number of documents pertinent to the inspection in the public docket described in **ADDRESSES**. These documents can be found online in EDOCKET ID No. OAR-2004-0020 and also in hard copy form as item II-A2-48 in Docket A-98-49. In accordance with 40 CFR 194.8, as amended by the final certification decision, EPA is providing the public 30 days to comment on these documents.

If EPA determines as a result of the inspection that the proposed waste streams, processes, systems, and equipment at RFETS adequately control the characterization of transuranic waste, we will notify DOE by letter and place the letter in the official Air Docket in Washington, DC, as well as in the informational docket locations in New Mexico. A letter of approval will allow DOE to dispose of TRU waste at the WIPP using the approved characterization processes. The EPA will not make a determination of compliance prior to the inspection or before the 30-day comment period has closed.

Information on the certification decision is filed in the official EPA Air Docket, Docket No. A-93-02 and is available for review in Washington, DC, and at three EPA WIPP informational docket locations in New Mexico. The dockets in New Mexico contain only major items from the official Air Docket in Washington, DC, plus those documents added to the official Air Docket since the October 1992 enactment of the WIPP LWA.

Dated: March 5, 2004.

Acting Assistant Administrator for Air and Radiation.
