AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection.

Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before February 6, 2023. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

Total Annual Cost: \$768,000.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Confidentiality concerns are not relevant to these types of disclosures. The Commission is not requesting carriers or providers to submit confidential information to the Commission. If the Commission requests that carriers or providers submit information which they believe is confidential, the carriers or providers may request confidential treatment of their information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission established a plan to ensure that payphone service providers (PSPs) were compensated for certain non-coin calls originated from their payphones. As part of this plan, the Commission required that by October 7, 1997, local exchange carriers were to provide payphone-specific coding digits to PSPs, and that PSPs were to provide those digits from their payphones to interexchange carriers. The provision of payphone-specific coding digits was a prerequisite to payphone per-call compensation payments by IXC's to PSPs for subscriber 800 and access code calls. The Commission's Wireline Competition Bureau subsequently provided a waiver until March 9, 1998, for those payphones for which the necessary coding digits were not provided to identify calls. The Bureau also on that date clarified the requirements established in the Payphone Orders for the provision of payphone-specific coding digits and for tariffs that LECs must file pursuant to the Payphone Orders.
