

on March 24, 2014 (79 FR 15959). The initial public review/submission period ended on May 23, 2014. The Draft Atlantic HMS EFH 5-Year Review was made available on March 5, 2015 (80 FR 11981), and the public comment period ended on April 6, 2015. NMFS analyzed the information gathered through the EFH review process, and the Notice of Availability for the Final Atlantic HMS EFH 5-Year Review was published on July 1, 2015 (80 FR 37598). As a result of this review, NMFS determined that a revision of HMS EFH was warranted, and that an amendment to the 2006

Consolidated Atlantic HMS FMP would be developed as Amendment 10.

On September 8, 2016 (81 FR 62100), NMFS published a notice of availability of the Draft Environmental Assessment for Amendment 10 to the 2006 Consolidated Atlantic HMS FMP. Specific actions analyzed included the update and revision of existing HMS EFH, as warranted; modification of existing HAPCs or designation of new HAPCs for bluefin tuna and sandbar, lemon, and sand tiger sharks, as warranted; and analysis of fishing and non-fishing impacts on EFH by

considering environmental and management changes and new information since 2009.

At the beginning of the conference call, a representative of NMFS will explain the ground rules (all comments are to be directed to the agency on the proposed action; attendees will be called to give their comments in the order in which they registered to speak; each attendee will have an equal amount of time to speak; and attendees should not interrupt one another). The NMFS representative will attempt to structure the meeting so that all attending members of the public will be able to comment, if they so choose, regardless of the controversial nature of the subject matter. If attendees do not respect the ground rules, they will be asked to leave the conference call.
