

The Board was established in the Nuclear Waste Policy Amendments Act of 1987 as an independent federal agency in the Executive Branch to evaluate the technical and scientific validity of DOE activities related to the management and disposal of SNF and HLW and to provide objective expert advice to Congress and the Secretary of Energy on these issues. Board members are experts in their fields and are appointed to the Board by the President from a list of candidates submitted by the National Academy of Sciences. The Board reports its findings, conclusions, and recommendations to Congress and the Secretary of Energy. All Board reports, correspondence, congressional testimony, and meeting transcripts and related materials are posted on the Board's website.

For information on the meeting agenda, contact Dan Ogg: ogg@nwtb.gov or Bret Leslie: leslie@nwtb.gov. For information on logistics, or to request copies of the workshop agenda or transcript, contact Sonya Townsend: townsend@nwtb.gov. All three may be reached by mail at 2300 Clarendon Boulevard, Suite 1300, Arlington, VA 22201-3367; by telephone at 703-235-4473; or by fax at 703-235-4495.

Dated: October 18, 2019.

Nigel Mote,

Executive Director, U.S. Nuclear Waste Technical Review Board.

BILLING CODE 6820-AM-P

POSTAL REGULATORY COMMISSION

[Docket Nos. MC2020-11 and CP2020-10]

New Postal Products

AGENCY: Postal Regulatory Commission.

ACTION: Notice.

SUMMARY: The Commission is noticing a recent Postal Service filing for the Commission's consideration concerning negotiated service agreements. This notice informs the public of the filing, invites public comment, and takes other administrative steps.

DATES: *Comments are due:* October 28, 2019.

ADDRESSES: Submit comments electronically via the Commission's Filing Online system at <http://www.prc.gov>. Those who cannot submit comments electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on filing alternatives.

FOR FURTHER INFORMATION CONTACT: David A. Trissell, General Counsel, at 202-789-6820.

SUPPLEMENTARY INFORMATION:

Table of Contents

- I. Introduction
- II. Docketed Proceeding(s)

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service agreement from the market dominant or the competitive product list, or the modification of an existing product currently appearing on the market dominant or the competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3007.301.¹

The Commission invites comments on whether the Postal Service's request(s) in the captioned docket(s) are consistent with the policies of title 39. For request(s) that the Postal Service states concern market dominant product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3622, 39 U.S.C. 3642, 39 CFR part 3010, and 39 CFR part 3020, subpart B. For request(s) that the Postal Service states concern competitive product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3015, and 39 CFR part 3020, subpart B. Comment deadline(s) for each request appear in section II.

II. Docketed Proceeding(s)

1. *Docket No(s):* MC2020-11 and CP2020-10; *Filing Title:* USPS Request

¹ See Docket No. RM2018-3, Order Adopting Final Rules Relating to Non-Public Information, June 27, 2018, Attachment A at 19-22 (Order No. 4679).

to Add Priority Mail Express & Priority Mail Contract 101 to Competitive Product List and Notice of Filing Materials Under Seal; *Filing Acceptance Date:* October 18, 2019; *Filing Authority:* 39 U.S.C. 3642, 39 CFR 3020.30 *et seq.*, and 39 CFR 3015.5; *Public Representative:* Curtis E. Kidd; *Comments Due:* October 28, 2019.

This Notice will be published in the **Federal Register**.

Darcie S. Tokioka,

Acting Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87346; File No. SR-NYSEArca-2019-76]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Make Permanent Certain Options Market Rules That Are Linked to the Equity Market Plan To Address Extraordinary Market Volatility

October 18, 2019.

Pursuant to Section 19(b)(1) ¹ of the Securities Exchange Act of 1934 (the "Act") ² and Rule 19b-4 thereunder,³ notice is hereby given that on October 16, 2019, NYSE Arca, Inc. ("NYSE Arca" or the "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to make permanent certain options market rules that are linked to the equity market Plan to Address Extraordinary Market Volatility. The proposed rule change is available on the Exchange's website at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

¹ 15 U.S.C. 78s(b)(1).

² 15 U.S.C. 78a.

³ 17 CFR 240.19b-4.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to make permanent certain options market rules that are linked to the equity market Plan to Address Extraordinary Market Volatility (the "Limit Up-Limit Down Plan" or the "Plan"). This change is being proposed in connection with the recently approved amendment to the Limit Up-Limit Down Plan that allows the Plan to continue to operate on a permanent basis ("Amendment 18").⁴ The Exchange understands that the other national securities exchanges have filed or will file similar proposals to make permanent their respective pilot programs; thus this proposal would align Exchange rules with the rules of other options exchanges.⁵

In an attempt to address extraordinary market volatility in NMS Stock, and, in particular, events like the severe volatility on May 6, 2010, U.S. national securities exchanges and the Financial Industry Regulatory Authority, Inc. (collectively, "Participants") drafted the Plan pursuant to Rule 608 of Regulation NMS and under the Act.⁶ On May 31, 2012, the Commission approved the Plan, as amended, on a one-year pilot basis.⁷ Though the Plan was primarily

designed for equity markets, the Exchange believed it would, indirectly, potentially impact the options markets as well. Thus, the Exchange has previously adopted and amended Rule 6.65A-O and Commentary .03 to Rule 6.87-O to ensure the option markets were not harmed as a result of the Plan's implementation and has implemented such rules on a pilot basis that has coincided with the pilot period for the Plan (the "Options Pilots").⁸

Rule 6.65A-O essentially serves as a roadmap for the Exchange's universal changes due to the implementation of the Plan, and Commentary .03 to Rule 6.87-O provides that transactions executed during a limit or straddle state are not subject to the obvious and catastrophic error rules. A limit or straddle state occurs when at least one side of the National Best Bid ("NBB") or Offer ("NBO") bid/ask is priced at a non-tradable level. Specifically, a straddle state exists when the NBB is below the lower price band while the NBO is inside the prices band or when the NBO is above the upper price band and the NBB is within the band, while a limit state occurs when the NBO equals the lower price band (without crossing the NBB), or the NBB equals the upper price band (without crossing the NBO). The Exchange adopted the Options Pilots to protect investors because when an underlying security is in a limit or straddle state, there will not be a reliable price for the security to serve as a benchmark for the price of the option. Specifically, the Exchange adopted Commentary .03 to Rule 6.87-O because the application of the obvious and catastrophic error rules would be impracticable given the potential for lack of a reliable NBBO in the options market during limit and straddle states. When adjusting or busting a trade pursuant to the obvious error rule, the determination of theoretical value of a trade generally references the NBB (for erroneous sell transactions) or NBO (for erroneous buy transactions) just prior to the trade in question, and is therefore not reliable when at least one side of the NBBO is priced at a non-tradeable level, as is the case in limit and straddle states. In such a situation, determining theoretical value is often a subjective rather than an objective determination

and could give rise to additional uncertainty and confusion for investors. As a result, application of the obvious and catastrophic error rules would be impracticable given the lack of a reliable NBBO in the options market during limit and straddle states, and may produce undesirable effects or unanticipated consequences.

The Exchange adopted additional measures via other Options Pilot rules that are designed to protect investors during limit and straddle states. For example, the Exchange will reject market orders and not elect stop orders⁹ during a Limit Up-Limit Down state to ensure that only those orders with a limit price will be executed during a limit or straddle state given the uncertainty of market prices during such a state. Furthermore, the Exchange believes that eliminating the application of obvious error rules during a limit or straddle state eliminates the re-evaluation of a transaction executed during such a state that could potentially create an unreasonable adverse selection opportunity due to lack of a reliable reference price on one side of the market or another and discourage participants from providing liquidity during limit and straddle states, which is contrary to the goal in limiting participants' adverse selection with the application of the obvious error rule during normal trading states.

For these reasons, the Exchange believes the Options Pilots are designed to add certainty on the options markets, which encourages more investors to participate in light of the changes associated with the Plan. The Plan was originally implemented on a pilot-basis in order to allow the public, the participating exchanges, and the Commission to assess the operation of the Plan and whether the Plan should be modified prior to approval on a permanent basis. As stated, the Exchange adopted the Option Pilots to coincide with this pilot; to continue the protections therein while the industry gains further experience operating the Plan.

In connection with the order approving the establishment of the obvious error pilot, as well as the extensions of the obvious error pilot, the Exchange committed to submit monthly data regarding the program and to

⁴ See Securities Exchange Act Release No. 85623 (April 11, 2019), 84 FR 16086 (April 17, 2019) (Order Approving Amendment No. 18).

⁵ For example, Cboe Exchange, Inc. ("Cboe") filed a proposal with the Commission to make permanent rules related to the Options Pilots, which filing has been approved. See Securities Exchange Act Release Nos. 86744 (August 23, 2019), 84 FR 45565 (August 29, 2019); 87311 (October 15, 2019) (SR-CBOE-2019-049) ("Cboe filing"). The Exchange notes that the substance of this proposal is identical to the Cboe filing.

⁶ See Securities Exchange Act Release No. 64547 (May 25, 2011), 76 FR 31647 (June 1, 2011) (File No. 4-631).

⁷ See Securities and Exchange Act Release No. 67091 (May 31, 2012) 77 FR 33498 (June 6, 2012).

⁸ See Securities Exchange Act Release Nos. 69340 (April 8, 2013), 78 FR 22004 (April 12, 2013) (SR-NYSEArca-2013-10) (amending certain options rules to coincide with the pilot period for the Plan); 76246 (October 23, 2015), 80 FR 66603 (October 29, 2015) (SR-NYSEArca-2015-101) (amending certain options rules to coincide with the pilot period for the Plan) and 85610 (April 11, 2019), 84 FR 16053 (April 17, 2019) (SR-NYSEArca-2019-22) (amending Rules 6.65A-O and 6.87-O, to extend the pilot period in connection with the Plan).

⁹ This includes rules in connection with special handling for market orders, market-on-close orders, stop orders, and stock-option orders, as well as for certain electronic order handling features in a Limit Up-Limit Down state, the obvious error rules, and providing that the Exchange will not require Market-Makers to quote in series of options when the underlying security is in a Limit Up-Limit Down state.

submit an overall analysis of the obvious error pilot in conjunction with the data submitted under the Plan and any other data as requested by the Commission. Pursuant to a rule filing, submitted on April 4, 2014, each month, the Exchange committed to provide the Commission, and the public, a dataset containing the data for each straddle and limit state in optionable stocks that had at least one trade on the Exchange (the “LULD Limit and Straddle Reports”).¹⁰ The Exchange has continued to provide the Commission with this data on a monthly basis from October 2015. For each trade on the Exchange, the Exchange provides (a) the stock symbol, option symbol, time at the start of the straddle or limit state, an indicator for whether it is a straddle or limit state, and (b) for the trades on the Exchange, the executed volume, time-weighted quoted bid-ask spread, time-weighted average quoted depth at the bid, time-weighted average quoted depth at the offer, high execution price, low execution price, number of trades for which a request for review for error was received during straddle and limit states, an indicator variable for whether those options outlined above have a price change exceeding 30% during the underlying stock's limit or straddle state compared to the last available option price as reported by OPRA before the start of the limit or straddle state. In addition, to help evaluate the impact of the pilot program, the Exchange has provided to the Commission, and the public, assessments relating to the impact of the operation of the obvious error rules during limit and straddle states including: (1) An evaluation of the statistical and economic impact of limit and straddle states on liquidity and market quality in the options markets, and (2) an assessment of whether the lack of obvious error rules in effect during the straddle and limit states are problematic. The Exchange has concluded that the obvious error pilot does not negatively impact market quality during normal market conditions,¹¹ and that there has been insufficient data to assess whether a lack of obvious error rules is problematic, however, the Exchange

believes the continuation of Commentary .03 to Rule 6.87–O functions to protect against any unanticipated consequences in the options markets during a limit or straddle state and add certainty on the options markets.

The Commission recently approved the Plan on a permanent basis (Amendment 18).¹² In connection with this approval, the Exchange now proposes to amend Rule 6.65A–O and Commentary .03 to Rule 6.87–O that currently implement the provisions of the Plan on a pilot basis to eliminate the pilot basis, which effectiveness expires on October 18, 2019, and to make such rules permanent. In its approval order to make the Plan permanent, the Commission recognized that, as a result of the Participants’ and industry analysis of the Plan’s operation, the Limit Up-Limit Down mechanism effectively addresses extraordinary market volatility. Indeed, the Plan benefits markets and market participants by helping to ensure orderly markets, but also, the Exchange believes, based on the data made available to the public and the Commission during the pilot period, that the obvious error pilot does not negatively impact market quality during normal market conditions.¹³ Rather, the Exchange believes the obvious error pilot functions to protect against any unanticipated consequences in the options markets during a limit or straddle state and add certainty on the options markets.

The Exchange also believes the other Options Pilots rules provide additional measures designed to protect investors during limit and straddle states. For example, the Exchange will reject market orders and not elect stop orders¹⁴ during a Limit Up-Limit Down state to ensure that only those orders with a limit price will be executed during a limit or straddle state given the uncertainty of market prices during such a state. This removes impediments to and perfects the mechanism of a free and open market and national market system by encouraging more investors to participate in light of the changes associated with the Plan. The Exchange believes that if approved on a permanent basis, the Options Pilots would permanently provide investors with the above-described additional certainty of market prices and mitigation of unanticipated

consequences and unreasonable adverse selection risk during limit and straddle states.

The Exchange understands that the other national securities exchanges have filed or will file similar proposals to make permanent their respective pilot programs. Since the Commission’s approval of Amendment 18 allowing the Plan to operate on a permanent basis, the Exchange and other national securities exchanges have determined that no further amendments should be made to the Options Pilots;¹⁵ the current Options Pilots effectively address extraordinary market volatility, are reasonably designed to comply with the requirements of the Plan, facilitate compliance with the Plan and should now operate on a permanent basis, consistent with the Plan. The Exchange does not propose any additional changes to Rule 6.65A–O and Commentary .03 to Rule 6.87–O.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the requirements of Section 6(b) of the Act,¹⁶ in general, and Section 6(b)(5) of the Act,¹⁷ in particular, in that it is designed to remove impediments to and perfect the mechanism of a free and open market and a national market system, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest and not to permit unfair discrimination between customers, issuers, brokers, or dealers. The Exchange believes that the proposed rule change promotes just and equitable principles of trade in that it promotes transparency and uniformity across markets concerning rules for options markets adopted to coincide with the Plan. The Exchange believes that eliminating the Options Pilots and making such rules permanent facilitates compliance with the Plan.

In particular, the Exchange believes that the proposed rule supports the objectives of perfecting the mechanism of a free and open market and the national market system because it promotes transparency and uniformity across markets concerning rules for options markets adopted to coincide with the Plan. The Exchange believes that eliminating the pilot basis for the Options Pilots and making such rules permanent facilitates compliance with the Plan by adding certainty to the markets during periods of market

¹⁰ See Securities Exchange Act Release No. 71869 (April 4, 2014), 79 FR 19689 (April 9, 2014) (SR–NYSEARCA–2014–36); see also NYSE Arca, LULD Limit and Straddle Reports, available at: <https://www.nyse.com/markets/arca-options/reports>.

¹¹ See NYSE Arca, LULD Limit and Straddle Reports, available at: <https://www.nyse.com/markets/arca-options/reports>. During the most recent Review Period the Exchange did not receive any obvious error review requests for Limit-Up-Limit Down trades, and Limit Up-Limit Down trade volume accounted for nominal overall trade volume.

¹² See *supra* note 4.

¹³ See *supra* note 11. The Exchange’s obligation to submit and publish the LULD Limit and Straddle Reports was extinguished upon the approval of Amendment 18.

¹⁴ See *supra* note 9.

¹⁵ See Securities Exchange Act Release No. 85610 (April 11, 2019), 84 FR 16053 (April 17, 2019) (SR–NYSEARCA–2019–22) (proposal to extend the pilot for certain options market rules linked to the Plan).

¹⁶ 15 U.S.C. 78f(b).

¹⁷ 15 U.S.C. 78f(b)(5).

volatility, which has been approved and found by the Commission to be reasonably designed to prevent potentially harmful price volatility in NMS Stocks. It has been determined by the Commission that the Plan benefits markets and market participants by helping to ensure orderly markets, and, based on the data made available to the public and the Commission during the pilot period for Commentary .03 to Rule 6.87–O, the Plan does not negatively impact options market quality during normal market conditions. Rather, the Plan, as it is implemented under the obvious error pilot, functions to protect against any unanticipated consequences in the options markets during a limit or straddle state and add certainty on the options markets. During a limit or straddle state, determining theoretical value of an option may be a subjective rather than an objective determination given the lack of a reliable NBBO, which may create an unreasonable adverse selection opportunity and discourage participants from providing liquidity during limit and straddle states. Therefore, the Exchange believes eliminating obvious error review in such states would, in turn, eliminate uncertainty and confusion for investors and benefit investors by encouraging more participation in light of the changes associated with the Plan.

As stated, the Exchange believes the other Options Pilots rules provide additional measures designed to protect investors during limit and straddle states. For example, the Exchange will reject market orders and not elect stop orders¹⁸ during a Limit Up-Limit Down state to ensure that only those orders with a limit price will be executed during a limit or straddle state given the uncertainty of market prices during such a state. Accordingly, the Exchange believes that making the Options Pilots permanent will further the goals of investor protection and fair and orderly markets as the rules effectively address extraordinary market volatility pursuant to the Plan.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed rule change is necessary to reflect that the Plan no longer operates as a pilot and has been approved to operate on a permanent basis by the Commission. As such, Exchange Rules 6.65A–O and Commentary .03 to Rule

6.87–O, which implement protections in connection with the Plan, should be amended to operate on a permanent basis. The Exchange understands that the other national securities exchanges have filed or will also file similar proposals to make permanent their respective pilot programs.¹⁹ Thus, the proposed rule change will help to ensure consistency across market centers without implicating any competitive issues.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act²⁰ and Rule 19b–4(f)(6) thereunder.²¹

A proposed rule change filed under Rule 19b–4(f)(6)²² normally does not become operative prior to 30 days after the date of the filing. However, Rule 19b–4(f)(6)(iii)²³ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposed rule change may become effective and operative immediately upon filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest, as it will allow the current Options Pilots to continue on a permanent basis without any changes, prior to the pilot expiration on October 18, 2019. For this reason, the Commission hereby waives the 30-day

operative delay and designates the proposed rule change as operative upon filing.²⁴

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR–NYSEArca–2019–76 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to File Number SR–NYSEArca–2019–76. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE,

¹⁹ See e.g., Cboe filing, *supra* note 5.

²⁰ 15 U.S.C. 78s(b)(3)(A).

²¹ 17 CFR 240.19b–4(f)(6). In addition, Rule 19b–4(f)(6)(iii) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

²² 17 CFR 240.19b–4(f)(6).

²³ 17 CFR 240.19b–4(f)(6)(iii).

²⁴ For purposes only of waiving the 30-day operative delay, the Commission has also considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

¹⁸ See *supra* note 9.

Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NYSEArca-2019-76 and should be submitted on or before November 14, 2019.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.²⁵

Eduardo A. Aleman,

Deputy Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-87352; File No. SR-NYSENAT-2019-24]

Self-Regulatory Organizations; NYSE National, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Extend the Current Pilot Program Related to Rule 7.10

October 18, 2019.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (“Act”)² and Rule 19b-4 thereunder,³ notice is hereby given that on October 16, 2019, NYSE National, Inc. (“NYSE National” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to extend the current pilot program related to Rule 7.10 (Clearly Erroneous Executions) to the close of business on April 20, 2020. The proposed rule change is available on the Exchange’s website at www.nyse.com, at the principal office of

the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to extend the current pilot program related to Rule 7.10 (Clearly Erroneous Executions) to the close of business on April 20, 2020. The pilot program is currently due to expire on October 18, 2019.

On September 10, 2010, the Commission approved, on a pilot basis, changes to Rule 11.19 (Clearly Erroneous Executions) that, among other things: (i) Provided for uniform treatment of clearly erroneous execution reviews in multi-stock events involving twenty or more securities; and (ii) reduced the ability of the Exchange to deviate from the objective standards set forth in the rule.⁴ In 2013, the Exchange adopted a provision designed to address the operation of the Plan.⁵ Finally, in 2014, the Exchange adopted two additional provisions providing that: (i) A Series of transactions in a particular security on one or more trading days may be viewed as one event if all such transactions were effected based on the same fundamentally incorrect or grossly misinterpreted issuance information resulting in a severe valuation error for all such transactions; and (ii) in the event of any disruption or malfunction in the operation of the electronic communications and trading facilities of an Exchange, another SRO, or responsible single plan processor in connection with the transmittal or receipt of a trading halt, an Officer,

acting on his or her own motion, shall nullify any transaction that occurs after a trading halt has been declared by the primary listing market for a security and before such trading halt has officially ended according to the primary listing market.⁶ Rule 11.19 is no longer applicable to any securities that trade on the Exchange and has been replaced with Rule 7.10, which is substantively identical to Rule 11.19.⁷

These changes were originally scheduled to operate for a pilot period to coincide with the pilot period for the Plan to Address Extraordinary Market Volatility (the “Limit Up-Limit Down Plan” or “LULD Plan”),⁸ including any extensions to the pilot period for the LULD Plan.⁹ In April 2019, the Commission approved an amendment to the LULD Plan for it to operate on a permanent, rather than pilot, basis.¹⁰ In light of that change, the Exchange amended Rule 7.10 to untie the pilot program’s effectiveness from that of the LULD Plan and to extend the pilot’s effectiveness to the close of business on October 18, 2019.¹¹

The Exchange now proposes to amend Rule 7.10 to extend the pilot’s effectiveness for a further six months to the close of business on April 20, 2020. If the pilot period is not either extended, replaced or approved as permanent, the prior versions of paragraphs (c), (e)(2), (f), and (g) as described in former Rule 11.19 will be in effect, and the provisions of paragraphs (i) through (k) shall be null and void.¹² In such an event, the remaining sections of Rule 7.10 would continue to apply to all transactions executed on the Exchange. The Exchange understands that the other national securities exchanges and Financial Industry Regulatory Authority (“FINRA”) will also file similar proposals to extend their respective clearly erroneous execution pilot
