

of the Refuge would continue to be closed to the public.

Under Alternative C, the Service would expand current management to protect listed and sensitive species, implement an IPM Plan to control invasive plants, and initiate a comprehensive restoration plan for an old agricultural site on the Refuge to restore creosote bush scrub habitat. In addition, the existing public outreach program would be expanded and interpretive signs would be installed along the existing trail corridor. Occasional guided tours of the Refuge would continue at current levels and public access would continue to be limited to the existing public trail corridor. All other areas within the Refuge would remain closed to the public.

Public Meetings

The locations, dates, and times of public meetings will be listed in a planning update distributed to the project mailing list and posted on the Sonny Bono Salton Sea National Wildlife Refuge Complex public Web site at <http://go.usa.gov/jbhn>.
