### NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

#### Agency Information Collection Activities: Submission for OMB Review; Comment Request

**AGENCY:** National Archives and Records Administration (NARA).

**ACTION:** Notice.

**SUMMARY:** NARA is giving public notice that the agency has submitted to OMB for approval the information collection described in this notice. The public is invited to comment on the proposed information collection pursuant to the Paperwork Reduction Act of 1995.

**DATES:** Written comments must be submitted to OMB at the address below on or before June 27, 2008 to be assured of consideration.

**ADDRESSES:** Send comments to Desk Officer for NARA, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; fax: 202-395-5167.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the proposed information collection and supporting statement should be directed to Tamee Fechhelm at telephone number 301-837-1694 or fax number 301-713-7409.

**SUPPLEMENTARY INFORMATION:** Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. NARA published a notice of proposed collection for this information collection on March 11, 2008 (73 FR 13019 and 13020). No comments were received. NARA has submitted the described information collection to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection is necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of information technology; and (e) whether small businesses are affected by this collection. In this notice, NARA is soliciting comments concerning the following information collection:

*Title:* Authorization for Release of Military Medical Patient Records, Request for Information Needed to Locate Medical Records, Request for Information Needed to Reconstruct Medical Data, and Questionnaire about Military Service.

*OMB number:* 3095-0039.

*Agency form number:* NA Forms 13036, 13042, 13055, and 13075.

*Type of review:* Regular.

*Affected public:* Veterans, their authorized representatives, state and local governments, and businesses.

*Estimated number of respondents:* 79,800.

*Estimated time per response:* 5 minutes.

*Frequency of response:* On occasion (when respondent wishes to request information from a military personnel, military medical, and dependent medical record).

*Estimated total annual burden hours:* 6,650 hours.

*Abstract:* The information collection is prescribed by 36 CFR 1228.162. In accordance with rules issued by the Department of Defense (DOD) and the Department of Transportation (DOT, U.S. Coast Guard), the National Personnel Records Center (NPRC) of the National Archives and Records Administration (NARA) administers military personnel and medical records of veterans after discharge, retirement, and death. In addition, NPRC administers the medical records of dependents of service personnel. When veterans, dependents, and other authorized individuals request information from or copies of documents in military personnel, military medical, and dependent medical records, they must provide on forms or in letters certain information about the veteran and the nature of the request. A major fire at the NPRC on July 12, 1973, destroyed numerous military records. If individuals' requests involve records or information from records that may have been lost in the fire, requesters may be asked to complete NA Form 13075, Questionnaire about Military Service, or NA Form 13055, Request for Information Needed to Reconstruct Medical Data, so that NPRC staff can search alternative sources to reconstruct the requested information. Requesters who ask for medical records of dependents of service personnel and hospitalization records of military personnel are asked to complete NA Form 13042, Request for Information Needed to Locate Medical Records, so that NPRC staff can locate the desired records. Certain types of information contained in military personnel and

medical records are restricted from disclosure unless the veteran provides a more specific release authorization than is normally required. Veterans are asked to complete NA Form 13036, Authorization for Release of Military Medical Patient Records, to authorize release to a third party of a restricted type of information found in the desired record.

## NUCLEAR REGULATORY COMMISSION

[Docket No.: 40-8027]

### Notice of Availability of the Environmental Impact Statement for the Reclamation of Sequoyah Fuels Corporation Site in Gore, Oklahoma, NUREG-1888

**AGENCY:** U.S. Nuclear Regulatory Commission.

**ACTION:** Notice of availability of Final Environmental Impact Statement.

#### FOR FURTHER INFORMATION CONTACT:

Allen Fetter, Project Manager, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone: (301) 415-8556; e-mail: [allen.fetter@nrc.gov](mailto:allen.fetter@nrc.gov).

**SUMMARY:** Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC) is issuing a Final Environmental Impact Statement (EIS) for the Sequoyah Fuels Corporation (SFC) license amendment application, dated January 28, 2003, and subsequently revised by letters dated February 27, 2004, and July 30, 2004, for the surface reclamation of SFC's former uranium conversion site near Gore, Oklahoma. The Final EIS also addresses the SFC license amendment application dated June 12, 2003, for groundwater corrective actions at the SFC site.

The Final EIS discusses the purpose and need for SFC's proposed surface reclamation activities and groundwater corrective actions and reasonable alternatives to the proposed action, including the no-action alternative. The Final EIS also discusses the environment potentially affected by the SFC proposal, presents and compares the potential environmental impacts resulting from the proposed action and its alternatives, and identifies mitigation

measures that could eliminate or lessen the potential environmental impacts.

Based on the final evaluation in the Final EIS, the NRC environmental review staff has concluded that the proposed action would have small effects on the physical environment and human communities with the exception of land use, for which the impact would be moderate. This Final EIS reflects the final analysis of environmental impacts of the proposed actions and its alternatives, including the consideration of public comments received by the NRC.

**ADDRESSES:** The NRC maintains an Agencywide Documents Access and Management System (ADAMS), which provides text and image files of NRC's public documents. The Final EIS and its appendices may be accessed through the NRC's Public Electronic Reading Room on the Internet at <http://www.nrc.gov/reading-rm/adams.html>, using the Agencywide Documents Access and Management System (ADAMS) accession number ML081300103 for the Final EIS. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room Reference staff at 1 (800) 397-4209, (301) 415-4737 or by e-mail to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov).

The Final EIS is also available for inspection at the Commission's Public Document Room, U.S. NRC's Headquarters Building, 11555 Rockville Pike (first floor), Rockville, Maryland. Upon written request and to the extent supplies are available, a single copy of the Final EIS can be obtained for a fee by writing to the Office of the Chief Information Officer, Reproduction and Distribution Services Section, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; by electronic mail at [Distribution.Resource@nrc.gov](mailto:Distribution.Resource@nrc.gov); or by fax at (301) 415-2289.

**SUPPLEMENTARY INFORMATION:** The NRC staff has prepared this Final EIS in response to two license amendment requests submitted by SFC for the surface reclamation and groundwater restoration at SFC's former uranium conversion site near Gore, Oklahoma. The Final EIS was prepared by the staff of the NRC and its contractor, Ecology & Environment, Inc., in compliance with the National Environmental Policy Act (NEPA) and the NRC's regulations for implementing NEPA (10 CFR Part 51).

The NRC staff published a Notice of Intent to prepare an EIS for the Sequoyah Fuels Corporation Site and to conduct a scoping process, in the
