

specific environmental resource area. The NRC documented its assessments and conclusions in the Draft SEIS.

In addition to the action proposed by Strata, the NRC staff addressed the no-action alternative, as well as alternative location for proposed facility. All the alternatives were analyzed in detail. The no-action alternative serves as a baseline for comparing the potential environmental impacts of the proposed action.

After weighing the impacts of the proposed action and comparing the alternatives, the NRC staff, in accordance with 10 CFR 51.71(f), sets forth its preliminary recommendation regarding the proposed action. Unless safety issues mandate otherwise, the NRC staff preliminarily recommends that the proposed action be approved (*i.e.*, the NRC should issue a source material license for the proposed Ross Project).

The Draft SEIS is being issued for public comment. The public comment period on the Draft SEIS begins with publication of this notice and continues until May 13, 2013. Written comments should be submitted as described in the **ADDRESSES** section of this document. The NRC will consider comments received or postmarked after that date to the extent practical.

Dated at Rockville, Maryland, this 20th day of March 2013.

For the U.S. Nuclear Regulatory Commission.

Aby Mohseni,

Deputy Director, Environmental Protection and Performance Assessment Directorate, Division of Waste Management and Environmental Protection, Office of Federal and State Materials and Environmental Management Programs.
