

Initiation of New Shipper Reviews

Pursuant to section 751(a)(2)(B) of the Act and 19 CFR 351.214(d)(1), we find that Hanson meets the threshold requirements for initiation of an NSR for the shipment of diamond sawblades from the PRC produced and exported by Hanson. See "Memorandum to The File from Ricardo Martinez, Case Analyst, Initiation of AD New Shipper Review: Certain Diamond Sawblades and Parts Thereof from the People's Republic of China (A-570-900)," dated concurrently with this notice.

The Department intends to issue the preliminary results of this NSR no later than 180 days from the date of initiation, and the final results no later than 270 days from the date of initiation. See section 751(a)(2)(B)(iv) of the Act.

It is the Department's usual practice, in cases involving non-market economies, to require that a company seeking to establish eligibility for an antidumping duty rate separate from the country-wide rate provide evidence of *de jure* and *de facto* absence of government control over the company's export activities. Accordingly, we will issue questionnaires to Hanson, which will include a section requesting information with regard to Hanson's export activities for separate rates purposes. The review will proceed if the response provides sufficient indication that Hanson is not subject to either *de jure* or *de facto* government control with respect to its exports of subject merchandise.

We will instruct U.S. Customs and Border Protection to allow, at the option of the importer, the posting, until the completion of the review, of a bond or security in lieu of a cash deposit for each entry of the subject merchandise from Hanson in accordance with section 751(a)(2)(B)(iii) of the Act and 19 CFR 351.214(e). Because Hanson certified that it both produced and exported the subject merchandise, the sale of which is the basis for this NSR request, we will apply the bonding privilege to Hanson only for subject merchandise which Hanson both produced and exported.

Interested parties requiring access to proprietary information in this NSR should submit applications for disclosure under administrative protective order in accordance with 19 CFR 351.305 and 351.306. This initiation and notice are in accordance with section 751(a)(2)(B) of the Act and 19 CFR 351.214 and 351.221(c)(1)(i).

Dated: December 30, 2010.

Edward C. Yang,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

National Wetland Plant List

AGENCY: U. S. Army Corps of Engineers, Department of Defense.

ACTION: Notice.

SUMMARY: The National Wetland Plant List (NWPL) is used to delineate wetlands for purposes of the Clean Water Act and the Wetland Conservation Provisions of the Food Security Act. Other applications of the list include wetland restoration, establishment, and enhancement projects. To update the NWPL, the U.S. Army Corps of Engineers (Corps), as part of an interagency effort with the U.S. Environmental Protection Agency (EPA), the U.S. Fish and Wildlife Service (FWS) and the U.S. Department of Agriculture, Natural Resources Conservation Service (NRCS), is announcing the availability of the draft National Wetland Plant List (NWPL) and its web address to solicit public comments. The public will now be provided the opportunity to comment and vote on the wetland indicator status ratings of the plants, species nomenclature changes and the revisions to the definition of indicator status ratings contained in the NWPL.

DATES: Written comments must be submitted on or before March 7, 2011.

ADDRESSES: You may submit comments on indicator status evaluations and

general comments through the Web site identified below. Whenever possible, commenters should submit comments on-line at: http://wetland_plants.usace.army.mil/. For instructions on how to submit comments online, please go to the supplementary section below.

For those without internet access, comments may be sent to Ms. Karen Mulligan, U.S. Army Corps of Engineers, Regulatory Community of Practice, 441 G St., NW., Washington, DC 20314–1000.

FOR FURTHER INFORMATION CONTACT: Ms. Karen Mulligan, Headquarters, Regulatory Community of Practice, Washington, DC or Mr. Robert Lichvar, Director of the National Wetland Plant List, Engineer Research and Development Center, Cold Regions Research and Engineering Laboratory. Ms. Mulligan can be reached at (202) 761–4664 and Mr. Lichvar can be reached at (603) 646–4657.

SUPPLEMENTARY INFORMATION:

Background

The effort to develop a comprehensive wetland plant list began with the FWS in 1976 and paralleled the development of their wetland classification system for the National Wetland Inventory (NWI), which culminated in Classification of Wetlands and Deepwater Habitats of the United States in 1979. A brief footnote in that publication mentions that the FWS intended to produce “a list of hydrophytes and other plants occurring in wetlands of the United States” for use in conjunction with the NWI. At about the same time the NRCS, then known as the Soil Conservation Service (SCS), initiated an effort to prepare a preliminary list of hydric soils, again for use with the NWI. Through a series of subsequent drafts, the FWS effort eventually led to the production of the National List of Plant Species That Occur in Wetlands: 1988 National Summary (List 88)—and associated regional lists.

The FWS initially derived the lists by searching some 300 national and regional floras and other scientific publications. This effort produced the Annotated National Wetland Plant Species Database, which documented the taxonomy, nomenclature, distribution, and ecology of wetland flora in the U.S. In 1987, the SCS (through a contract with the Biota of North America Program [BONAP]) updated the taxonomy and nomenclature that culminated in List 88. During the initial development of the database, a wetland rating system was created based on habitat
