

differences between the selling activities associated with the home-market level of trade and those associated with the CEP level of trade. Therefore, we determined that CEP sales were at a different level of trade from the home-market sales. Consequently, we could not match U.S. sales to sales at the same level of trade in the home market. Moreover, data necessary to determine a level-of-trade adjustment was not available. Therefore, because home-market sales were made at a more advanced stage of distribution than that of the CEP level, we made a CEP-offset adjustment when comparing CEP and home-market sales in accordance with section 773(a)(7)(B) of the Act. For a more detailed description of our analysis, see the Level-of-Trade section of our December 18, 2000, Analysis Memo.

Preliminary Results of Review

As a result of our review, we preliminarily determine a weighted-average dumping margin of 0.00 percent for Tosoh for the period April 1, 1999, through December 31, 1999.

Any interested party may request a hearing within 30 days of publication of this notice. Hearing requests should specify the number of participants and provide a list of the issues to be discussed. Any hearing, if requested, will be held 40 days after the date of publication of this notice, or the first workday thereafter. Issues raised in hearings will be limited to those raised in the respective case and rebuttal briefs. Interested parties may submit case briefs within 30 days of the date of publication of this notice. Rebuttal briefs, which must be limited to issues raised in the case briefs, may be filed not later than 37 days after the date of publication of this notice.

Parties who submit arguments are requested to submit with the arguments (1) a table of contents, (2) a statement of the issue, (3) a list of authorities used, and (4) an executive summary of issues. Executive summaries should be limited to five pages total, including footnotes.

Hearing requests should specify the number of participants and provide a list of the issues to be discussed. All memoranda to which we refer in this notice can be found in the public reading room, located in the Central Records Unit, room B-099 of the main Department of Commerce building.

The Department will publish the final results of this administrative review, including the results of its analysis of issues raised in any such written briefs or at a hearing. The Department will issue final results of this review within

120 days of publication of these preliminary results.

Upon completion of the final results of this administrative review, if there is no change from our preliminary results, we will instruct the Customs Service to liquidate all appropriate entries without regard to antidumping duties.

Effective January 1, 2000, this order was revoked. (65 FR 26567, May 8, 2000). As a result, no cash deposit of estimated antidumping duties are required on imports of EMD from Japan after January 1, 2000.

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

We are issuing and publishing this determination in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: January 2, 2001.

Troy H. Cribb,

Assistant Secretary for Import Administration.

Background

On June 30, 2000, the Department of Commerce (the Department) received a request from Kawasaki Steel Corporation ("Kawasaki") for an administrative review of the antidumping duty order on hot-rolled flat-rolled carbon-quality steel products from Japan. On July 31, 2000, the Department published a notice of initiation of this administrative review, covering the period of February 19, 1999 through May 31, 2000 (65 FR 46687).

Extension of Time Limits for Preliminary Results

Because of the complexities enumerated in the Memorandum from Barbara E. Tillman to Joseph A. Spetrini, *Extension of Time Limit for the Administrative Review of Hot-Rolled Flat-Rolled Carbon-Quality Steel Products from Japan*, dated January 3, 2001, it is not practical to complete this review within the time limits mandated by section 751(a)(3)(A) of the Act.

Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time limit for the preliminary results of review until June 29, 2001. The final results continue to be due 120 days after the publication of the preliminary results.

Background

On August 31, 1999, the Department of Commerce (the Department) received a request from petitioner, Nation Ford Chemical Company (NFC), to conduct an administrative review on Zhenxing Chemical Company. The Department also received a request for an administrative review on the same day from respondents Zhenxing Chemical Company, Yude Chemical Company, and PHT International, the U.S. importer. Tapered Roller Bearings and Parts Thereof, Finished and Unfinished, From the People's Republic of China; Final Results of 1998-1999 Administrative Review, Partial Rescission of Review, and Determination Not To Revoke Order in Part

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of 1998-1999 (twelfth) administrative review, partial rescission of the review, and determination not to revoke the order in part.

SUMMARY: We have determined that sales of tapered roller bearings and parts thereof, finished and unfinished, from the People's Republic of China, were made below normal value during the period June 1, 1998, through May 31, 1999. Based on our review of comments received and a reexamination of surrogate value data, we have made certain changes in the margin calculation of all of the reviewed companies. Consequently, the final results differ from the preliminary results. The final weighted-average dumping margins for these firms are listed below in the section entitled "Final Results of the Review." Based on these final results of review, we will instruct the Customs Service to assess antidumping duties based on the difference between the export price and normal value on all appropriate entries.

China National Machinery Import & Export Corporation, Wafangdian Bearing Group Corp. Import & Export Company, Wanxiang Group Corporation, and Zhejiang Machinery Import & Export Corp. have requested revocation of the antidumping duty order in part. Based on record evidence, we find that none of these companies qualify for revocation. Accordingly, we are not revoking the order with respect to the subject merchandise produced and exported by these four companies.

EFFECTIVE DATE: January 10, 2001.
