BILLING CODE 6712-01-P

**FEDERAL COMMUNICATIONS COMMISSION****47 CFR Part 73****[MB Docket No. 22-146; RM-11925; DA 23-17; FR ID 122668]****Television Broadcasting Services  
Memphis, Tennessee****AGENCY:** Federal Communications Commission.**ACTION:** Final rule.

**SUMMARY:** On April 5, 2022, the Media Bureau, Video Division (Bureau) issued a *Notice of Proposed Rulemaking (NPRM)* in response to a petition for rulemaking filed by Gray Television Licensee, LLC (Petitioner or Gray), the licensee of WMC-TV (Station or WMC-TV), channel 5, Memphis, Tennessee, requesting the substitution of channel 30 for channel 5 at Memphis in the Table of TV Allotments. For the reasons set forth in the *Report and Order* referenced below, the Bureau amends FCC regulations to substitute channel 30 for channel 5 at Memphis.

**DATES:** Effective January 17, 2023.**FOR FURTHER INFORMATION CONTACT:** Joyce Bernstein, Media Bureau, at (202) 418-1647 or [Joyce.Bernstein@fcc.gov](mailto:Joyce.Bernstein@fcc.gov).

**SUPPLEMENTARY INFORMATION:** The proposed rule was published at 87 FR 22166 on April 14, 2022. The Petitioner filed comments in support of the petition reaffirming its commitment to apply for channel 30. No other comments were filed.

The Bureau believes the public interest would be served by substituting channel 30 for channel 5 at Memphis, Tennessee. The proposed channel substitution will resolve significant over-the-air reception problems in WMC-TV's service area due to its operation on a low VHF channel, reception problems which the Commission has recognized can exist on VHF channels. An analysis using the Commission's *TVStudy* software tool indicates that WMC-TV's move from channel 5 to channel 30 is predicted to create an area where 4,072 persons may lose service. The loss area, however, is largely overlapped by the noise limited contours of other NBC affiliated stations and most viewers will continue to receive service from five or more stations. In addition, the Petitioner acquired three LPTV stations and constructed modified facilities to deliver NBC programming to viewers in the loss area. As a result, only 64

persons would either (1) no longer receive NBC network programming or (2) no longer receive service from five or more full power television services. In practice, Gray expects that few, if any, persons who are currently able to receive WMC-TV's over-the-air signal on channel 5 would no longer be able to receive WMC-TV's over-the-air signal as a result of the Station's transition to channel 30. Although the Petitioner's proposal would result in a loss for a limited number of viewers, the Bureau finds that the overall benefits of the proposed channel change outweighs any possible harm to the public interest when taking into account the ability of all but a *de minimis* number of viewers to access NBC programming from another source.

This is a synopsis of the Commission's *Report and Order*, MB Docket No. 22-146; RM-11925; DA 23-17, adopted January 9, 2023, and released January 9, 2023. The full text of this document is available for download at <https://www.fcc.gov/edocs>. To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format), send an email to [fcc504@fcc.gov](mailto:fcc504@fcc.gov) or call the Consumer & Governmental Affairs Bureau at 202-418-0530 (voice), 202-418-0432 (tty).

This document does not contain information collection requirements subject to the Paperwork Reduction Act of 1995, Public Law 104-13. In addition, therefore, it does not contain any proposed information collection burden "for small business concerns with fewer than 25 employees," pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, *see* 44 U.S.C. 3506(c)(4). Provisions of the Regulatory Flexibility Act of 1980, 5 U.S.C. 601-612, do not apply to this proceeding.

The Commission will send a copy of this *Report and Order* in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, *see* 5 U.S.C. 801(a)(1)(A).

**List of Subjects in 47 CFR Part 73**

Television.

Federal Communications Commission.

**Thomas Horan,***Chief of Staff, Media Bureau.***Final Rule**

For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR part 73 as follows:

**PART 73—RADIO BROADCAST SERVICE**

■ 1. The authority citation for part 73 continues to read as follows:

**Authority:** 47 U.S.C. 154, 155, 301, 303, 307, 309, 310, 334, 336, 339.

■ 2. In § 73.622(j), amend the Table of TV Allotments, under Tennessee, by revising the entry for Memphis to read as follows:

**§ 73.622 Table of TV Allotments.**

BILLING CODE 6712-01-P

**DEPARTMENT OF COMMERCE****National Oceanic and Atmospheric Administration****50 CFR Part 648****[Docket No. 230109-0004; RTID 0648-XC472]****Revisions to Framework Adjustment 63 to the Northeast Multispecies Fishery Management Plan and Sector Annual Catch Entitlements**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Final rule; adjustment to specifications.

**SUMMARY:** This final rule announces carryover allocation from fishing year 2021 into fishing year 2022 for the Northeast Multispecies sectors program. This action is necessary to distribute carryover quota to sectors. The carryover adjustments in this rule are routine and formulaic, and industry expects them each year.

**DATES:** Effective January 13, 2023, through April 30, 2023.

**FOR FURTHER INFORMATION CONTACT:** Spencer Talmage, Fishery Management Specialist, (978) 281-9232.

**SUPPLEMENTARY INFORMATION:** On July 15, 2022, we published a final rule approving Framework Adjustment 63 to the Northeast Multispecies Fishery Management Plan (FMP) (87 FR 42375), which set or adjusted annual catch limits (ACL) for 5 of the 20 groundfish stocks, and 2022 ACLs for three shared U.S./Canada stocks. This rule distributes unused sector quota carried over from fishing year 2021 to fishing year 2022.

#### **Sector Carryover Allocations From Fishing Year 2021**

Carryover regulations at 50 CFR 648.87(b)(1)(i)(C) allow each groundfish sector to carry over an amount of unused annual catch entitlement (ACE) up to 10 percent of the sector's original ACE for each stock (except for Georges Bank [GB] yellowtail flounder) that is unused at the end of the fishing year into the following fishing year. We are required to adjust ACE carryover to ensure that the total unused ACE

combined with the overall sub-ACL does not exceed the acceptable biological catch (ABC) for the fishing year in which the carryover may be harvested. We have completed 2021 fishing year data reconciliation with sectors and determined final 2021 fishing year sector catch and the amount of allocation that sectors may carry over from the 2021 to the 2022 fishing year. Accordingly, unused ACE from fishing year 2021 available to carry over to fishing year 2022 has been reduced for the following stocks: GB cod; GB haddock; Gulf of Maine (GOM) haddock; Southern New England/Mid-Atlantic (SNE/MA) yellowtail flounder; Cape Cod/GOM yellowtail flounder; American plaice, witch flounder; GB winter flounder; GOM winter flounder; SNE/MA winter flounder; redfish; white hake; and pollock. The only stock for which carryover was a full 10 percent of the original quota allocation from fishing year 2021 was GOM cod.

Complete details on carryover reduction percentages can be found at: [https://www.greateratlantic.fisheries.noaa.gov/ro/fso/reports/h/groundfish\\_catch\\_accounting](https://www.greateratlantic.fisheries.noaa.gov/ro/fso/reports/h/groundfish_catch_accounting).

Table 1 includes the maximum amount of allocation that sectors may carry over from the 2021 to the 2022 fishing year. Table 2 includes the *de minimis* amount of carryover for each sector for the 2022 fishing year. If the overall ACL for any allocated stock is exceeded for the 2022 fishing year, the allowed carryover harvested by a sector, minus the pounds in the sector's *de minimis* amount, will be counted against its allocation to determine whether an overage subject to an accountability measure occurred. Tables 3 and 4 list the final ACE available to sectors for the 2022 fishing year, including finalized carryover amounts for each sector, as adjusted down when necessary to equal each stock's ABC.

NMFS is issuing this rule pursuant to 305(d) of the Magnuson-Stevens Fishery Conservation and Management Act (MSA), which provides specific authority for implementing this action. Section 305(d) authorizes NMFS to take action to carry out provisions in FMPs and of the MSA. In a previous action taken pursuant to section 304(b), NMFS approved the Council designed provisions in the FMP to authorize NMFS to annually adjust and distribute sector carryover consistent with MSA requirements to prevent overfishing and achieve optimum yield. See § 648.87(b)(1)(i)(C). The NMFS Assistant Administrator has determined that this final rule is consistent with the Northeast Multispecies FMP, other provisions of the Magnuson-Stevens Fishery Conservation and Management Act, and other applicable laws.

This final rule is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(3)(B), we find good cause to waive prior public notice and opportunity for public comment on the allocation adjustments because allowing time for notice and comment is impracticable, unnecessary,

and contrary to the public interest. We also find good cause to waive the 30-day delay in effectiveness pursuant to 5 U.S.C. 553(d)(1) and (3), so that this final rule may become effective in a timely manner and the fishery may maximize the economic benefits of the adjusted allocations to the fishery.

Notice and comment and a 30-day delay in effectiveness would be impracticable, unnecessary, and contrary to the public interest. The distribution of unused quota carried over from the previous fishing year is an annual adjustment action that is expected by industry. These adjustments increase available catch, and sector vessels will be able to fish for this additional catch as soon as this action is in effect, which will provide increased operational flexibility and ability to catch its available allocation. They are routine, formulaic, and authorized by regulation. The public had prior notice and opportunity to participate in the development of and comment on the regulations implementing this process and expects this adjustment each year. Delaying these adjustments would result in a delay in the distribution of unused carryover to sectors, and could negate or

reduce the intended economic benefits and increased operational flexibility provided by these adjustments. Carryover from 2021 was only recently finalized because it is based on data that was not available until the late fall upon the conclusion of the catch accounting process for fishing year 2021.

Also, because advanced notice and the opportunity for public comment are not required for this action under the Administrative Procedure Act, or any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, do not apply to this rule. Therefore, no final regulatory flexibility analysis is required and none has been prepared.

This final rule contains no information collection requirements under the Paperwork Reduction Act of 1995.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: January 10, 2023.
