

- The “Terms of Credit Card Plans Survey” collects data on credit card pricing and availability from a sample of at least 150 financial institutions that offer credit cards. The data enables the Bureau to present information to the public on terms of credit card plans;

- Sections 204 and 305 of the Credit Card Accountability Responsibility and Disclosure Act of 2009 (CARD Act), amending TILA, and 12 CFR 1026.57(d) and 1026.58, require card issuers to submit to the Bureau:

- Agreements between the issuer and a consumer under a credit card account for an open-end consumer credit plan; and

- Any college credit card agreements to which the issuer is a party and certain additional information regarding those agreements.

The data collections enable the Bureau to provide Congress and the public with a centralized and searchable repository for consumer and college credit card agreements and information regarding the arrangements between financial institutions and institutions of higher education.

Request for Comments: The Bureau published a 60-day **Federal Register** notice on August 18, 2022 (87 FR 50851) under Docket Number: CFPB–2022–0048. The Bureau is publishing this notice and soliciting comments on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Bureau, including whether the information will have practical utility; (b) The accuracy of the Bureau’s estimate of the burden of the collection of information, including the validity of the methods and the assumptions used; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments submitted in response to this notice will be reviewed by OMB as part of its review of this request. All comments will become a matter of public record.

Anthony May,

Paperwork Reduction Act Officer, Consumer Financial Protection Bureau.

Department of the Air Force

Record of Decision for the Supplemental Environmental Impact Statement Tinian Divert Infrastructure Improvements Commonwealth Northern Marianas Islands

ACTION: Notice of availability of record of decision.

SUMMARY: On December 15, 2022, the Department of the Air Force (DAF) signed the Record of Decision (ROD) for the Tinian Divert Infrastructure Improvements Commonwealth Northern Marianas Islands Final Supplemental Environmental Impact Statement.

ADDRESSES: Mr. Erik Waldrip, AFCEC/CZN, Building 1 Bay 8 Room 8009, 3515 S General McMullen, San Antonio, TX 78226–1710, (210) 925–3001; erik.waldrip@us.af.mil.

SUPPLEMENTARY INFORMATION: The DAF has selected the East underground fuel pipeline alternative and the roadway improvements alternative.

The DAF decision documented in the ROD was based on matters discussed in the Final Supplemental Environmental Impact Statement, inputs from the public and regulatory agencies, and other relevant factors. The Final Supplemental Environmental Impact Statement was made available to the public on July 17, 2020 through a Notice of Availability in the **Federal Register** (Volume 85, Number 138, Page 43580) with a waiting period that ended on August 18, 2020.

Authority: This Notice of Availability is published pursuant to the regulations (40 CFR part 1506.6) implementing the provisions of the National Environmental Policy Act (42 U.S.C. 4321, *et seq.*) and the Air Force’s Environmental Impact Analysis Process (32 CFR parts 989.21(b) and 989.24(b)(7)).

Tommy W. Lee,

Acting Air Force Federal Register Liaison Officer.

BILLING CODE 5001–10–P

DEPARTMENT OF DEFENSE

Department of the Air Force

[Docket ID USAF–2023–HQ–0004]

Proposed Collection; Comment Request

AGENCY: Department of the Air Force, Department of Defense (DoD).

ACTION: 60-Day information collection notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, Air Force Services announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency’s estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by April 11, 2023.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: Department of Defense, Office of the Assistant to the Secretary of Defense for Privacy, Civil Liberties, and Transparency, 4800 Mark Center Drive, Mailbox #24, Suite 08D09, Alexandria, VA 22350–1700.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to Air Force Services, 1040 Air Force Pentagon, Washington, DC 20330–1040; ATTN: Randi Ramcharan, or call (703) 693–0683.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Air Force Families Forever Annual Survey; OMB Control Number 0701–AFFF.

Needs and Uses: The goal of the annual Air Force Families Forever (AFFF) survey is to measure effectiveness of the program from the customer perspective. The information

from the survey will be used to update policy, operational guidance, processes, or resources based on the feedback provided. Respondents include next of kin family members of deceased Regular Air Force, Space Force, and Reserve Component members who died in an active duty, inactive duty for training, or annual training status and whose relationship was established prior to the member's death.

Affected Public: Individuals or households.

Annual Burden Hours: 116.67.

Number of Respondents: 350.

Responses per Respondent: 1.

Annual Responses: 350.

Average Burden per Response: 20 minutes.

Frequency: Annually.

Dated: February 7, 2023.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

DEPARTMENT OF DEFENSE

Department of the Army

Final Environmental Impact Statement Addressing Heat and Electrical Upgrades at Fort Wainwright, Alaska

AGENCY: Department of the Army, DoD.

ACTION: Notice of Availability.

SUMMARY: The Department of the Army (Army) announces the availability of the Final Environmental Impact Statement (Final EIS) addressing heat and electrical upgrades at Fort Wainwright, Alaska. The current coal-fired central heat and power plant (CHPP) and its aging heat distribution system require an upgrade that resolves safety, resiliency, fiscal, and regulatory concerns. The Final EIS analyzes and evaluates reasonable alternatives, potential environmental impacts, and mitigation measures, and responds to comments on the Draft EIS. The Army will observe a 30-day waiting period before deciding how to proceed.

DATES: The waiting period for the Final EIS will end 30 days after publication of this Notice of Availability in the **Federal Register** by the U.S. Environmental Protection Agency, at which time the Army can execute a Record of Decision.

ADDRESSES: Please submit questions or requests for a hard copy of the Final EIS to Mr. Matt Sprau at: Directorate of Public Works, ATTN: AMIM-AKP-E (M. Sprau), 1046 Marks Road #4500, Fort Wainwright, AK 99703-4500; or by

email at usarmy.wainwright.id-pacific.mbx.heu-eis@army.mil.

FOR FURTHER INFORMATION CONTACT: Mr. Grant Sattler at: Public Affairs Office, AMIM-AKG-PA (Sattler), 1060 Gaffney Road #5900, Fort Wainwright, AK 99703-5900; by telephone at (907) 353-6701; or by email at alan.g.sattler.civ@army.mil.

SUPPLEMENTARY INFORMATION: Fort Wainwright is in the interior of Alaska in the Fairbanks North Star Borough. It is home to U.S. Army Garrison—Alaska (USAG-Alaska) and units of the 11th Airborne Division. The soldiers, families, and civilian employees that make up the Fort Wainwright population rely on a 65-year-old coal-fired CHPP and an antiquated heat distribution system, with 24 percent of the steam and condensate pipe installed in the 1950s, to heat and power more than 400 facilities. The CHPP is one of the oldest working coal-fired power plants in the United States and is operating beyond its design life. Constructing upgraded heat and electrical infrastructure would reduce utility costs, minimize the risk of a catastrophic failure, help safeguard mission readiness, meet energy efficiency standards, comply with emissions standards, and conform to Army-directed energy security criteria.

The Final EIS was prepared in accordance with: the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S. Code § 4321 *et seq.*); NEPA implementing regulations issued by the President's Council on Environmental Quality (40 Code of Federal Regulations [CFR] Parts 1500–1508); and the Army's NEPA implementing regulation (32 CFR part 651, Environmental Analysis of Army Actions).

The Final EIS will inform decision-makers, as well as federal, state, and local agencies, interested parties, Alaska Natives, Native Americans, Native American organizations and Tribes, public organizations, and the general public of the possible environmental consequences associated with heat and electrical upgrades at Fort Wainwright.

USAG Alaska is proposing to upgrade its coal-fired central heat and power plant on Fort Wainwright to a more reliable and sustainable heating and electrical infrastructure system that would be compliant with Army installation energy security requirements and air quality regulations for the region. The purpose of the Proposed Action is to provide reliable heat and electrical infrastructure for the installation that resolves current safety, resiliency, fiscal, and regulatory

concerns. The Proposed Action is needed to prevent the failure of heat and power generation and distribution. Such a failure could require evacuation of the installation and severely affect mission readiness. USAG-Alaska needs to meet DoD and Army energy efficiency, energy security, and resiliency criteria, and must comply with air quality regulations. Within the last decade, the installation experienced four critical, near-catastrophic failures of the CHPP and 11 unexpected, installation-wide outages due to maintenance, repair, or operational issues. Unexpected outages present substantial risk to safety and mission readiness.

The Final EIS considered a No-Action Alternative and three Action Alternatives that were determined to be reasonable: (1) construction of a new coal-fired CHPP; (2) construction of a new dual-fuel combustion turbine generator CHPP that would primarily rely on natural gas; and (3) decentralization of heat and power, whereby heat would be provided by natural gas boilers at facilities across the installation and electricity would be purchased from a local utility provider.

Implementation of the preferred alternative would result in significant adverse socioeconomic and environmental justice impacts. Significant impacts to cultural resources could be mitigated to be less than significant. Beneficial impacts would primarily involve enhancements in heating efficiency, air quality, and job creation. The Final EIS summarizes the potential impacts for each considered alternative.

The Final EIS identified several non-carbon-based alternative energy sources, including nuclear, geothermal, wind, and solar power. These alternatives were not carried forward for full analysis because they could not fully meet the heat and power needs of the installation. Such technologies could potentially be used in the future to supplement the installation's energy output.

The Army identified Alternative 3, Install Distributed Natural Gas Boilers, as the preferred alternative. The Army based its preference on: public comments; environmental, social, technical, and economic considerations; and the ability to meet the missions of USAG-Alaska and the 11th Airborne Division.

An electronic copy of the Final EIS is available online at: <https://home.army.mil/alaska/index.php/fort-wainwright/NEPA/HEU-EIS>. Hard copies of the Final EIS will be available at the following facilities when they are open: the Noel Wien Library, 1215
