Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

In addition, the PDT will provide advice on combining management options into alternatives to

meet overall adverse effects minimization requirements. Other area-management options and combined alternatives may also be discussed.

As a reminder, the Habitat Committee's work will feed into a joint process between the Habitat and Groundfish Committees. This joint process will draft combined alternatives that merge habitat options with yet-to-be-developed groundfish productivity-related options. This range of alternatives will be presented to the Council early next year for their approval for analysis in the OA2 Environmental Impact Statement/Magnuson-Stevens Act document.

Bureau of Ocean Energy Management staff will provide a brief status update on the Massachusetts and Rhode Island Wind Energy Areas (WEA) where leasing is under consideration, and will solicit feedback on a recently completed Environmental Assessment for the MA WEA.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
