Amendment of Jet Route J–89 and  
VOR Federal Airway V–161, and  
Establishment of Canadian RNAV  
Route Q–834; Northcentral United  
States

AGENCY: Federal Aviation  
Administration (FAA), DOT.

ACTION: Final rule; correction.

**SUMMARY:** This action corrects a final rule published by the FAA in the **Federal Register** on June 18, 2024, that amended Jet Route J–89 and Very High Frequency Omnidirectional Range (VOR) Federal Airway V–161, and established Canadian Area Navigation (RNAV) Route Q–834 in United States (U.S.) airspace. In the Q–834 description in the final rule, the order of the listed route points was reversed in error. This action makes editorial corrections to list the Q–834 route points to match the route data forms and the FAA National Airspace System Resource (NASR) database information.

**SUPPLEMENTARY INFORMATION:** On July  
18, 2024, BIS published in the **Federal  
Register** the interim final rule (IFR),  
“Standards-Related Activities and the  
Export Administration Regulations” (89  
FR 58265) that revised parts 734, 744  
and 772 of the EAR. The revisions in the  
July 18, 2024, rule inadvertently  
reverted changes to part 744 that were  
amended in a final rule that BIS  
published on June 18, 2024 (89 FR  
51644). This document corrects the  
inadvertent revisions introduced in the  
**Federal Register** on July 18, 2024,

**History**

The FAA published a final rule in the  
**Federal Register** (89 FR 51403; June 18,  
2024), amending Jet Route J–89 and  
VOR Federal Airway V–161, and  
establishing Canadian RNAV Route Q–  
834 in U.S. airspace. Subsequent to  
publication, the FAA determined that  
the Q–834 route points listed in the  
route description did not match the  
order of the route points listed in the  
route data forms or the FAA NASR  
database. This rule corrects that  
mismatch of route points listed in the  
rule, the route data forms, and NASR  
database by reversing the order of the  
route points listed in the Q–834  
description published in the final rule.

This is an editorial change only to  
match the Q–834 description with the  
route data forms and FAA NASR  
database information and does not alter  
the alignment of the new Q–834 route.

**Correction to Final Rule**

Accordingly, pursuant to the  
authority delegated to me, Canadian  
RNAV route Q–834 reflected in Docket  
No. FAA–2023–2493, as published in  
the **Federal Register** of June 18, 2024  
(89 FR 51403), FR Doc. 2024–13209, is  
corrected as follows:

■ 1. On page 51405, correct the table for  
Q–834 Duluth, MN (DLH) to ALBNG,  
MN [New] to read:

specifically to §§ 744.11, 744.16, and  
supplement no. 4 to part 744, to  
reintroduce language that was added in  
the June 18, 2024, rule that reflected the  
addition of paragraph (f) under § 744.16.

■ 2. Section 744.11 is amended by revising paragraph (a) introductory text to read as follows:

**§ 744.11 License requirements that apply to entities acting contrary to the national security or foreign policy interests of the United States.**

\* \* \* \* \*

(a) *License requirement, availability of license exceptions, and license application review policy.* A license is required, to the extent specified on the Entity List, to export, reexport, or transfer (in-country) any item subject to the EAR when an entity that is listed on the Entity List, or any entity using an address identified on the Entity List as presenting a high risk of diversion to activities of concern, is a party to the transaction as described in § 748.5(c) through (f) of the EAR unless otherwise authorized or excluded in this section. License exceptions may not be used unless authorized in the Entity List entry for the entity that is party to the transaction or for an address that presents a high diversion risk that is used by a party to the transaction. Applications for licenses required by this section will be evaluated as stated in the relevant Entity List entry, in addition to any other applicable review policy stated elsewhere in the EAR.

\* \* \* \* \*

■ 3. Section 744.16 is amended by revising paragraph (a) to read as follows:

**§ 744.16 Entity List.**

\* \* \* \* \*

(a) *License requirements.* In addition to the license requirements for items specified on the CCL, you may not, without a license from BIS, export, reexport, or transfer (in-country) any items included in the License Requirement column of an entry on the Entity List (supplement no. 4 to this part) when an entity associated with that entry or when any entity using an address of high diversion risk associated with that entry is a party to a transaction as described in § 748.5(c) through (f) of the EAR. The specific license requirement for each listed entity or address with high diversion risk is identified in the license requirement column on the Entity List in supplement no. 4 to this part.

\* \* \* \* \*

■ 4. Supplement no. 4 to part 744 is amended by revising the introductory text to read as follows:

**Supplement No. 4 to Part 744—Entity List**

This supplement lists certain entities or addresses subject to license requirements for specified items under this part 744 and part 746 of the EAR. License requirements for these entities include exports, reexports, and transfers (in-country) unless otherwise stated. A license is required, to the extent specified on the Entity List, to export, reexport, or transfer (in-country) any item subject to the EAR when an entity or a party to the transaction is operating at an address that is listed on the Entity List under an address entry is a party to the transaction as described in § 748.5(c) through (f) of the EAR. This list is revised and updated on a periodic basis in this supplement by adding new or amended notifications and deleting notifications no longer in effect.

**Safety Zone; Banana River, and Parts of Atlantic Ocean, FL**

**AGENCY:** Coast Guard, Department of Homeland Security (DHS).

**ACTION:** Temporary final rule.

**SUMMARY:** The Coast Guard is establishing a temporary moving safety zone around the National Aeronautics and Space Administration (NASA) barge PEGASUS and attached towing vessel while engaged in towing in the navigable waters of Sector Jacksonville Captain of the Port Zone, to encompass parts of the Atlantic Ocean, through the Canaveral Locks to the Banana River ending at the Kennedy Space Center turning basin. The temporary moving safety zone is necessary to protect persons, vessels, and the marine environment from potential hazards associated with the planned transit of the NASA barge PEGASUS and cargo within these navigable waters. No vessel or person will be permitted to enter the safety zone unless authorized by the

Captain of the Port Jacksonville or a designated representative.

**DATES:** This rule is effective without actual notice from July 25, 2024, through August 30, 2024. For the purposes of enforcement, actual notice will be used from July 20, 2024, until July 25, 2024.

**II. Background Information and Regulatory History**

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because it is impracticable. Details of the event which begins on July 20, 2024, were not made available until June 26, 2024. The Coast Guard was not notified with ample time to allow for public comment. Timely action is needed to respond to the potential safety hazards associated with the transit of the National Aeronautics and Space Administration (NASA) barge PEGASUS. It would be impracticable and contrary to the public interest to publish a NPRM because we must establish the safety zone by July 20,
