SUPPLEMENTARY INFORMATION: Pursuant to Executive Order 12148, as amended by Executive Order 12673 and Executive Order 13286, the President of the United States has delegated to the Department of Homeland Security (DHS), including FEMA, the authority to provide case management services as stated in the Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act), 42 U.S.C. 5189d. Under the Stafford Act, FEMA may provide DCM services directly to survivors through financial assistance to State, Indian tribal, or territorial government agencies. DCM services include identifying and addressing disaster-caused unmet needs of survivors through identification of, and referrals to, available resources. A disaster-caused unmet need is an un-resourced item, support, or assistance that has been assessed and verified as necessary for a survivor to recover from a disaster. This may include food, clothing, shelter, first aid, emotional and spiritual care, household items, home repair, or rebuilding.

When a State, Tribe, or territory (STT) applies for, requests a modification of, or appeals a FEMA determination for DCM Federal funding, the STT will utilize the respective forms to illustrate the need, why it is beyond the STT capacity to provide case management services itself, and how the STT will provide services to all populations in need. Additionally, the STT will be required to use the OMB-approved Standard Form 424 form family when applying for Federal funding.

To supplement their request, the STT will also submit a funding request using the budget form. The information gathered within these forms in the collection tool is used to determine the STT's need for DCM Federal funding and how they anticipate providing services to survivors.

Once awarded, the STT will use the monthly reporting collection tool to provide aggregate data on the services provided to survivors. The information gathered within this form helps FEMA assess the success of the program and ensure that all survivors in need of services are able to receive them and that the case managers are assisting survivors in finding resources that meet their disaster-caused unmet needs.
