States and their subgrantees should also understand the importance of their position, not just as a recipient of federal funding, but also via the role they play as the “entrusted liaison” on behalf of members of Underrepresented Communities/Covered Populations. Their efforts will ensure that individuals from Underrepresented Communities/Covered Populations can access unlimited possibilities and opportunities in the workforce.

Additionally, a non-federal entity must take all necessary affirmative steps to assure that minority businesses, women’s business enterprises, and Labor Surplus Area firms are contracted with when possible.³⁰

Question 23: How can NTIA encourage the design and implementation of Digital Equity Programs to support and advance the economic mobility of members of Underrepresented Communities/Covered Populations to support BEAD implementation and broader economic outcomes (e.g., through new skills, upskilling, re-skilling, career pathways, and other high-quality workforce development activities)?

Question 24: How can the BEAD and Digital Equity Programs support and promote youth employment and skills building? What kind of programs, projects, and partnerships—based on existing evidence—would encourage and prepare youth to have the digital skills needed to be workforce-ready, but also to enter internet and internet-related careers?
