## GENERAL SERVICES ADMINISTRATION

[Notice-MX-2014-01; Docket No. 2014-0002; Sequence 18]

### Announcement of Requirements and Registration for the “Public Sector Program Management—a Vision for the Future” Ideation Challenge

**AGENCY:** Performance Improvement Council (PIC), General Services Administration (GSA).

**ACTION:** Notice.

**SUMMARY:** The Performance Improvement Council (PIC) located in the General Services Administration (GSA) announces the “Public Sector Program Management—A Vision for the Future” ideation challenge. GSA is interested in initiating a public dialog on the future of program management in the government context. The contest challenges the public to look ahead 25 years and imagine how advances in technology and the skill set of a new generation will drive the development of public sector program management.

**DATES:** The challenge begins May 13, 2014 and ends May 27, 2014 (1:59 p.m. Eastern Daylight Time). Contestants must register and submit all entries by the contest end date. Public voting for a “Most Popular” entry begins May 13, 2014 and extends through June 03, 2014 (1:59 p.m. Eastern Daylight Time). GSA expects to announce winners in June, 2014. GSA reserves the right to extend the registration and submission period, and delay the award announcement, for any reason. The challenge can be viewed at <https://www.challenge.gov/>.

**FOR FURTHER INFORMATION CONTACT:**

Bethany Blakey, Performance Improvement Council, General Services Administration at 202-694-2981 and/or via email: [bethany.blakey@gsa.gov](mailto:bethany.blakey@gsa.gov).

**SUPPLEMENTARY INFORMATION:**

1. *Subject of the Competition:* GSA designed this challenge to generate a discussion about the coming state of program management in the public sector. Planning, project management, financial management, employee engagement, and reporting are among the key responsibilities of today’s public sector program managers. The approach to each of these and so many others is defined, in part, by the state of existing technology, access to data, and the ability of a skilled workforce to take full advantage of those resources. Today’s tools and resources both enable and limit program managers’ ability to deliver the best service to the public, efficiently and within budget, while adjusting to changes in political direction and mission focus.
