

available quantity as “the quantity of iron, steel, or relevant manufactured good that is available or will be available at the time needed and place needed, and in the proper form or specification as specified in the project plans and design.” The same Memorandum defines “satisfactory quality” as “the quality of steel, iron or manufactured good specified in the project plans and designs.”

Furthermore, the purpose of the ARRA is to stimulate economic recovery by funding current infrastructure construction, not to delay projects that are already “shovel ready” by requiring potential SRF eligible recipients such as the HSC to revise their design standards and specifications. The imposition of ARRA Buy American requirements in this case would result in unreasonable delay for this project. To delay this construction would directly conflict with a fundamental economic purpose of ARRA, which is to create or retain jobs.

The Municipal Assistance Unit (CMU) has reviewed this waiver request and has determined that the supporting documentation provided by the HSC established both a proper basis to specify the particular good required and that this manufactured good was not available from a producer in the United States able to meet the design specifications for the proposed project. The information provided is sufficient to meet the following criteria listed under Section 1605(b) of the ARRA and in the April 28, 2009 Memorandum: Iron, steel, and the manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality.

The March 31, 2009 Delegation of Authority Memorandum provided Regional Administrators with the authority to issue exceptions to Section 1605 of ARRA within the geographic boundaries of their respective regions and with respect to requests by individual grant recipients.

Having established both a proper basis to specify the particular good required for this project and that this manufactured good was not available from a producer in the United States, the HSC is hereby granted a waiver from the Buy American requirements of Section 1605(a) of Public Law 111–5 for the purchase and use of the specified polyethylene Biofilm chip carrier element (media) documented in HSC’s waiver request submittal dated May 19, 2009, for its proposed wastewater treatment plant upgrade using ARRA funds. This supplementary information constitutes the detailed written justification required by Section 1605(c)

for waivers based on a finding under subsection (b).

Authority: Public Law 111–5, section 1605.

Dated: July 29, 2009.

Ira W. Leighton,

Acting Regional Administrator, Region I, New England.
