

Sec 20, N¹/₂ N¹/₂. Principal Montana Meridian, all in Yellowstone County, in the State of Montana.

Closure signs will be posted at the major entry points to this area. Maps of the closure and information may be obtained from the Billings Field Office.

DATES: This closure will be in effect from October 1, 2002, to September 30, 2003, unless superseded by permanent rulemaking action.

Discussion of the Emergency Closure: This emergency closure is necessary for the management of actions, activities, and public use on certain public lands which may have, or are having, adverse impacts on persons using public lands, on property, and on resources located on public lands until permanent management action can be taken. Increasing levels of public use are creating conflicts between different user groups. The subject lands are utilized for recreational hiking, horseback riding, mountain biking, off-highway vehicle use, wildlife observation, hunting, and target shooting.

While hikers, horseback riders, mountain bicyclists and other users can schedule their use around published hunting seasons for safety reasons, they are not able to avoid random target shooting. Local conditions including heavy timber and rough terrain reduce visibility and increase the hazard to other users from target shooters. Recent incidents involving random target shooting have resulted in endangerment and injury to other users. In addition, resource damage is occurring from the accumulation of debris from target materials. To reduce the incidence of future conflicts, three areas of public land known as the Acton Area, 21-Mile Area, and Shepherd Ah-Nei, located north of Billings, Montana are being closed to target shooting with firearms. These areas will remain open to hunting by licensed hunters during seasons administered by the Montana Department of Fish, Wildlife and Parks.

This emergency closure does not apply to other lands, specifically the "17-Mile" area located west of Highway 87, north of Billings, Montana, on the Crooked Creek Road.

SUPPLEMENTARY INFORMATION: Under the authority of 43 CFR 9268.3(d)(1)(i) and 43 CFR 8364.1(a) the Bureau of Land Management will enforce the following emergency closure on public lands within the closed area.

Emergency Closure

1.0 Emergency Closure of Certain Public Lands to Target Shooting.

The following is prohibited:

The discharge of firearms for the purpose of target shooting.

(2.0) Exceptions:

(a) This regulation does not apply to the hunting of lawful game by licensed hunters during seasons administered by the Montana Department of Fish, Wildlife and Parks.

(b) This regulation does not apply to archery marksmanship at fixed targets affixed to a backstop sufficient to stop and hold target or broad-head arrows or the use of compressed gas paintball projectors.

(c) This regulation does not apply to special target shooting events, which may be authorized by the authorized officer under special permit.

Penalties: The authority for this closure is found under section 303(a) of the Federal Land Policy and Management Act of 1976 (43 U.S.C 1733 (a) and 43 CFR 9268.3(e)(2), 43 CFR 8360.0-7, and 43 CFR 8365.1-6. Violations of this regulation are punishable by a fine in accordance with the Sentencing Reform Act of 1984 (18 U.S.C. 3551 *et seq.*), and/or imprisonment not to exceed 12 months for each offense.

SUPPLEMENTARY INFORMATION:

Title: 30 CFR 206, Subpart B, Indian Oil (Form MMS-4416, Indian Crude Oil Valuation Report).

OMB Control Number: 1010-0113.

Bureau Form Number: Form MMS-4416.

Abstract: The Department of the Interior (DOI) is responsible for matters relevant to mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). The Secretary of the Interior (Secretary) is responsible for managing the production of minerals from Federal and Indian lands and the OCS, collecting royalties from lessees who produce minerals, and distributing the funds collected in accordance with applicable laws. The Secretary has an Indian trust responsibility to manage Indian lands and seek advice and information from Indian beneficiaries. MMS performs the royalty management functions and assists the Secretary in carrying out DOI's Indian trust responsibility.

Section 101(a) of the Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA), as amended, requires the Secretary to "establish a comprehensive inspection, collection, and fiscal and production accounting and auditing system to provide the capability to accurately determine oil and gas royalties, interest, fines, penalties, fees, deposits, and other payments owed, and collect and account for such amounts in a timely manner." To accomplish these tasks more effectively, MMS published a proposed rule in the **Federal Register** on February 12, 1998 (63 FR 7089) and a supplementary proposed rule on

January 5, 2000 (65 FR 403). The rules proposed add more certainty to valuation of oil produced from Indian lands and eliminate any direct reliance on posted prices by, among other provisions, requiring Indian lessees and purchasers to submit certain contract information to MMS.

MMS awaited the Solicitor General's approval of the appeal in the Federal Energy Regulatory Commission 636 case regarding duty to market before publishing a final rule. MMS intends to publish a final rule in Fiscal Year 2003. Because OMB approval of this information collection expires February

28, 2003, we are seeking OMB approval to renew these reporting requirements until a final rule is published.

Not collecting this information would limit the Secretary's ability to discharge his/her duties and may also result in loss of royalty payments to the Indian lessor due to royalties not being collected on prices received under higher priced long-term sales contracts. Proprietary information submitted is protected, and there are no questions of a sensitive nature included in this information collection.

We have also changed the title of this ICR from "Indian Crude Oil Valuation

Report (Form MMS-4416)" to "30 CFR part 206, Subpart B, Indian Oil (Form MMS-4416, Indian Crude Oil Valuation Report)" to clarify the regulatory language we are covering under 30 CFR part 206.

Frequency: Monthly.

Estimated Number and Description of Respondents: 225 payors-purchasers.

Estimated Annual Reporting and Recordkeeping "Hour" Burden: 2,362 hours.

The following chart shows the breakdown of the burden hours by CFR section and paragraph:

Proposed 30 CFR section	Reporting requirement	Burden hours per response	Annual number of responses	Annual burden hours
§ 206.61(d)(5)	You must submit information on Form MMS-4416 related to all of your crude oil production from Indian leases. You must initially submit Form MMS-4416 no later than [insert the date 2 months after the effective date of this rule] and then by October 31 [insert the year this regulation takes effect], and by October 31 of each succeeding year.	.1667	¹ 2,025	337.5
	In addition to the annual requirement to file this form, you must file a new form each time you execute a new exchange or sales contract involving the production of oil from an Indian lease. However, if the contract merely extends the time period a contract is in effect without changing any other terms of the contract, this requirement to file does not apply. All other purchasers of crude oil from designated areas likewise are subject to the requirements of this paragraph (d)(5).	.5	² 4,050	2,025
Total	6,075	2,363

¹ 1,350 payor-purchaser agreements or contracts plus 675 non-payor-purchaser agreements or contracts.

² 225 payor-purchasers X 6 agreements or contracts per payor X 1/2 hour per submission X 2 submissions per year plus 675 agreements or contracts submitted by non-payor-purchasers X 1/2 hour per submission X 2 submissions per year.

Estimated Annual Reporting and Record keeping "Non-hour Cost" Burden: We have identified no "non-hour" cost burdens.

Comments: The PRA (44 U.S.C. 3501, *et seq.*) provides an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency " * * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *." Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of

automated collection techniques or other forms of information technology.

The PRA also requires agencies to estimate the total annual reporting "non-hour cost" burden to respondents or record keepers resulting from the collection of information. We have not identified non-hour cost burdens for this information collection. If you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information; monitoring, sampling, testing equipment; and record storage facilities. Generally, your estimates should not include equipment or services purchased: (i) Before October

1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our ICR submission for OMB approval, including appropriate adjustments to the estimated burden. We will provide a copy of the ICR to you without charge upon request and the ICR will also be posted on our Web site at http://www.mrm.mms.gov/Laws_R_D/FRNotices/FRInfColl.htm.

Public Comment Policy: We will post all comments in response to this notice on our Web site at http://www.mrm.mms.gov/Laws_R_D/FRNotices/FRInfColl.htm. We will also make copies of the comments available for public review, including names and addresses of respondents, during regular business hours at our offices in Lakewood, Colorado. Individual respondents may request we withhold their home address from the public

record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold from the rulemaking record a respondent's identity, as allowable by law. If you request that we withhold your name and/or address, state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.
