

consists of six sites totaling 2,170 acres: *Site 1* (1,315 acres)—main refinery and petrochemical complex located at 8189 Old FM 524 Road, Old Ocean; *Site 2* (160 acres)—Freeport I Terminal and storage facility located at County Road 731, some 28 miles southeast of the refinery; *Site 3* (183 acres)—six crude oil storage tanks at Jones Creek Terminal located at 6215 State Highway 36, some 17 miles southeast of the refinery; *Site 4* (34 acres)—San Bernard Terminal and storage facility located at County Road 378, 5 miles southeast of the refinery; *Site 5* (478 acres)—Clemens Terminal underground LPG storage located at County Road 314, 15 miles east of the refinery; and, *Site 6*—consisting of a six-mile pipeline.

The applicant is requesting authority to modify the boundaries of the subzone's *Site 1* as follows: (1) Expand the site by adding 490 acres; and, (2) remove 220 acres from the site. Modified *Site 1* would consist of 1,585 acres. No additional authorization for production activity has been requested at this time.

In accordance with the FTZ Board's regulations, Camille Evans of the FTZ Staff is designated examiner to review the application and make recommendations to the FTZ Board.

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is May 3, 2021. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to May 18, 2021.

A copy of the application will be available for public inspection in the "Reading Room" section of the FTZ Board's website, which is accessible via www.trade.gov/ftz.

For further information, contact Camille Evans at Camille.Evans@trade.gov.

Dated: March 22, 2021.

Andrew McGilvray,
Executive Secretary.

Certain Frozen Warmwater Shrimp from India: Notice of Final Results of Antidumping Duty Changed Circumstances Review

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On December 16, 2020, the Department of Commerce (Commerce) published the preliminary results of a changed circumstances review of the antidumping duty order on certain frozen warmwater shrimp from India. For these final results, Commerce continues to find that LNSK Greenhouse Agro Products LLP (LNSK Greenhouse Agro) is the successor-in-interest to Green House Agro Products (Greenhouse Agro) in the context of the antidumping duty order on certain frozen warmwater shrimp from India.

DATES: Applicable March 26, 2021.

FOR FURTHER INFORMATION CONTACT:

Adam Simons, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-6172.

SUPPLEMENTARY INFORMATION:

Background

On August 17, 2020, LNSK Greenhouse Agro requested that Commerce conduct an expedited changed circumstances review, pursuant to section 751(b)(1) of the Tariff Act of 1930, as amended (the Act), 19 CFR 351.216, and 19 CFR 351.221(c)(3), to confirm that LNSK Greenhouse Agro is the successor-in-interest to Greenhouse Agro for purposes of determining antidumping duty cash deposits and liabilities.¹ In its submission, LNSK Greenhouse Agro stated that Greenhouse Agro converted its corporate structure from a partnership to a limited liability partnership and changed the company's name to LNSK Greenhouse Agro, but is otherwise unchanged with respect to the production and sale of subject merchandise.²

On October 7, 2020, Commerce initiated this changed circumstances

review.³ On December 16, 2020, Commerce published the *Preliminary Results*, preliminarily determining that LNSK Greenhouse Agro is the successor-in-interest to Greenhouse Agro.⁴ In the *Preliminary Results*, we provided all interested parties with an opportunity to comment.⁵ However, we received no comments.

Scope of the Order

The merchandise subject to the order is certain frozen warmwater shrimp.⁶ The product is currently classified under the following Harmonized Tariff Schedule of the United States (HTSUS) numbers: 0306.17.00.03, 0306.17.00.06, 0306.17.00.09, 0306.17.00.12, 0306.17.00.15, 0306.17.00.18, 0306.17.00.21, 0306.17.00.24, 0306.17.00.27, 0306.17.00.40, 1605.21.10.30, and 1605.29.10.10. Although the HTSUS numbers are provided for convenience and customs purposes, the written product description remains dispositive.

Final Results of Changed Circumstances Review

For the reasons stated in the *Preliminary Results*, Commerce continues to find that LNSK Greenhouse Agro is the successor-in-interest to Greenhouse Agro. As a result of this determination and consistent with established practice, we find that LNSK Greenhouse Agro should receive the cash deposit rate previously assigned to Greenhouse Agro. Consequently, Commerce will instruct U.S. Customs and Border Protection to suspend liquidation of all shipments of subject merchandise produced or exported by LNSK Greenhouse Agro and entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice in the **Federal Register** at 3.06 percent, which is the current antidumping duty cash deposit rate for Greenhouse Agro.⁷ This cash deposit requirement shall remain in effect until further notice.

² *Id.*

Notification to Interested Parties

We are issuing this determination and publishing these final results and notice in accordance with sections 751(b)(1) and 777(i)(1) and (2) of the Act and 19 CFR 351.216(e), 351.221(b), and 351.221(c)(3).

Dated: March 22, 2021.

Christian Marsh,

Acting Assistant Secretary for Enforcement and Compliance.

Corrosion-Resistant Steel Products From the People's Republic of China: Final Determination of No Shipments in the Antidumping Duty Administrative Review; 2018–2019

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) continues to find that Nippon Steel and Sumikin Sales Vietnam Co., Ltd. (NSSVC), Hoa Sen Group (HSG), and Ton Dong A Corporation (TDA) made no shipments of corrosion-resistant steel products (CORE) from the People's Republic of China (subject merchandise) during the period of review (POR) July 1, 2018, through June 30, 2019.

DATES: Applicable March 26, 2021.

FOR FURTHER INFORMATION CONTACT: Gene H. Calvert, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3586.

SUPPLEMENTARY INFORMATION:**Background**

On November 25, 2020, Commerce published the *Preliminary Results* of this administrative review in the **Federal Register**.¹ Commerce invited parties to submit comments on the *Preliminary Results*. No interested party submitted comments concerning the *Preliminary Results* or requested a hearing in this administrative review.

Accordingly, the final results of this administrative review remain unchanged from the *Preliminary Results*. The current deadline for these final results is March 25, 2021. Commerce conducted this review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

The products covered by this order are certain flat-rolled steel products, either clad, plated, or coated with corrosion-resistant metals such as zinc, aluminum, or zinc-, aluminum-, nickel—or iron-based alloys, whether or not corrugated or painted, varnished, laminated, or coated with plastics or other non-metallic substances in addition to the metallic coating. The products covered include coils that have a width of 12.7 mm or greater, regardless of form of coil (*e.g.*, in successively superimposed layers, spirally oscillating, *etc.*). The products covered also include products not in coils (*e.g.*, in straight lengths) of a thickness less than 4.75 mm and a width that is 12.7 mm or greater and that measures at least 10 times the thickness. The products covered also include products not in coils (*e.g.*, in straight lengths) of a thickness of 4.75 mm or more and a width exceeding 150 mm and measuring at least twice the thickness. The products described above may be rectangular, square, circular, or other shape and include products of either rectangular or non-rectangular cross-section where such cross-section is achieved subsequent to the rolling process, *i.e.*, products which have been “worked after rolling” (*e.g.*, products which have been beveled or rounded at the edges). For purposes of the width and thickness requirements referenced above:

(1) Where the nominal and actual measurements vary, a product is within the scope if application of either the nominal or actual measurement would place it within the scope based on the definitions set forth above, and

(2) where the width and thickness vary for a specific product (*e.g.*, the thickness of certain products with non-rectangular cross-section, the width of certain products with non-rectangular shape, *etc.*), the measurement at its greatest width or thickness applies.

Steel products included in the scope of this order are products in which: (1) Iron predominates, by weight, over each of the other contained elements; (2) the carbon content is 2 percent or less, by weight; and (3) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

- 2.50 percent of manganese, or
- 3.30 percent of silicon, or
- 1.50 percent of copper, or
- 1.50 percent of aluminum, or
- 1.25 percent of chromium, or
- 0.30 percent of cobalt, or
- 0.40 percent of lead, or
- 2.00 percent of nickel, or
- 0.30 percent of tungsten (also called wolfram), or
- 0.80 percent of molybdenum, or
- 0.10 percent of niobium (also called columbium), or
- 0.30 percent of vanadium, or
- 0.30 percent of zirconium

Unless specifically excluded, products are included in this scope regardless of levels of boron and titanium.

For example, specifically included in this scope are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels and high strength low alloy (HSLA) steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium and/or niobium added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, titanium, vanadium, and molybdenum.

Furthermore, this scope also includes Advanced High Strength Steels (AHSS) and Ultra High Strength Steels (UHSS), both of which are considered high tensile strength and high elongation steels.

Subject merchandise also includes corrosion-resistant steel that has been further processed in a third country, including but not limited to annealing, tempering, painting, varnishing, trimming, cutting, punching and/or slitting or any other processing that would not otherwise remove the merchandise from the scope of the order if performed in the country of manufacture of the in-scope corrosion resistant steel.

All products that meet the written physical description, and in which the chemistry quantities do not exceed any one of the noted element levels listed above, are within the scope of this order unless specifically excluded. The following products are outside of and/or specifically excluded from the scope of this order:

- Flat-rolled steel products either plated or coated with tin, lead, chromium, chromium oxides, both tin and lead (“terne plate”), or both chromium and chromium oxides (“tin free steel”), whether or not painted, varnished or coated with plastics or other non-metallic substances in addition to the metallic coating;

¹ See *Corrosion-Resistant Steel Products from the People's Republic of China: Preliminary Determination of No Shipments in the Antidumping Duty Administrative Review and Rescission, in Part; 2018–2019*, 85 FR 75299 (November 25, 2020) (*Preliminary Results*).
