

34(a)(3), 38, 87, and 6427(e)(1) (SAF credit). This notice also provides rules related to the section 4101 registration requirements. The certificate, reseller statement, and declaration created by IRS Notice 2023–06 will allow the IRS to verify that claimants are making proper credit and payment claims with respect to the SAF credit.

IRS Notice 2024–06 allows taxpayers to use the Renewable Fuel Standard (RFS) methodology to calculate the amount of the SAF credit. IRS Notice 2024–06 updated the certificate to include the RFS methodology.

IRS Notice 2024–37 allows taxpayers to use the 40BSAF–GREET 2024 methodology to calculate the amount of the SAF credit. IRS Notice 2024–37 also allows use of domestic corn and soybean grown using climate smart agriculture pursuant to a program called the U.S. Department of Agriculture (USDA) Climate Smart Agriculture (CSA) Pilot Program (USDA CSA Pilot Program) to be considered in determining the amount of the SAF credit. If all the elements are met, the registered producer can increase the emissions reduction, allowing for a larger amount of the SAF credit.

IRS Notice 2024–49 provides guidance on the registration requirements under IRC sections 45Z and 4101 for the clean fuel production credit. Section 45Z(f)(1)(A)(i)(I) provides that no clean fuel production credit shall be determined with respect to any transportation fuel unless the taxpayer is registered as a producer of clean fuel under section 4101 at the time of production. IRS Notice 2024–49 provides guidance on the time, form, and manner of such registration. IRS Notice 2024–49 provides that applicants will use Form 637 to apply for registration with the IRS and can apply for Activity Letter “CN” (for a producer of clean transportation fuel which is not SAF), or Activity Letter “CA” (for a producer of clean transportation fuel which is SAF), or both, in accordance with the instructions provided in the notice until Form 637 is updated.

Current Actions: IRS Notice 2024–37 has added a new certificate, revised the certificate from Notice 2024–06, and included new recordkeeping requirements. IRS Notice 2024–49 is revising Form 637 to add new activity codes and activity letters to be requested on Form 637.

Type of Review: Revision of a currently approved collection.

Affected Public: Individuals or households, Business or other for-profit, and not-for-profit entities.

Estimated Number of Responses: 9,949.

Estimated Time per Response: varies, from 30 minutes up to 13 hours 30 minutes.

Estimated Total Annual Burden Hours: 32,344.
