Form Number: N/A.

Current Actions: Revision of an existing collection of information.

Type of Review: Revision.

Affected Public: Businesses.

Abstract: The Automated Commercial Environment (ACE) is a trade data processing system that is replacing the Automated Commercial System (ACS), the current import system for U.S. Customs and Border Protection (CBP) operations. ACE is authorized by Executive Order 13659 which mandates implementation of a Single Window through which businesses will transmit data required by participating agencies for the importation or exportation of cargo. See 79 FR 10655 (February 25, 2014). ACE supports government agencies and the trade community with border-related missions with respect to moving goods across the border efficiently and securely. Once ACE is fully implemented, all related CBP trade functions and the trade community will be supported from a single common user interface.

To establish an ACE Portal account, participants submit information such as their name, their employer identification number (EIN) or social security number (SSN), and if applicable, a statement certifying their capability to connect to the internet. This information is submitted through the ACE Secure Data Portal which is accessible at: <http://www.cbp.gov/trade/automated>.

Please Note: A CBP-assigned number may be provided in lieu of your SSN. If you have an EIN, that number will automatically be used and no CBP number will be assigned. A CBP-assigned number is for CBP use only.

There is a standalone capability for electronically filing protests in ACE. This capability is available for participants who have not established ACE Portal Accounts for other trade activities, but desire to file protests electronically. A protest is a procedure whereby a private party may administratively challenge a CBP decision regarding imported merchandise and certain other CBP decisions. Trade members can establish a protest filer account in ACE through a separate application and the submission of specific data elements. See 81 FR 57928 (August 24, 2016).

#### Proposed Changes

##### 1. New ACE Account Type

CBP is creating a new ACE Account type for ACE Import Trade Carriers and their designees. This new account type:

Vessel Agency, enables users the ability to file vessel entrance, clearance, and related data to CBP electronically through the new Vessel Entrance and Clearance System (VECS).

The ACE Account Application will be changed to collect identifying information such as their name, their employer identification number (EIN), their company address, and their phone numbers, to be used to setup their Vessel Agency accounts. Users who create a Vessel Agency Account are automatically enrolled into the VECS public pilot.

##### 2. Removing ACE Account Types

In a separate action, unrelated to the Vessel Agency account type creation, CBP will also be removing account types “Cartman”, “Claimant”, and “Lighterman” from the ACE Account Application. These account types were never used and are being removed due to that lack of use.
