

certainty and Commission assurance that good faith reporting will not subject a company to the risk of sanctions.²³ So long as a data provider has adopted and is following the standards of the Policy Statement for reporting entities, we will apply the safe harbor policy, even if the company is not specifically subject to the Market Behavior Rules.

Requirement to Notify the Commission of Changes in Price Reporting Status

19. In Behavior Rule 4 and its counterpart in Order No. 644, we required that all sellers subject to the rule notify the Commission within 15 days of the effective date of the rule whether the seller reports its transactions in accordance with the Policy Statement. Additionally, we required that sellers update their notifications within 15 days of any change in their reporting status.²⁴ We directed market-based rate sellers to file their notifications in Docket No. EL01-118 and the docket in which they received market-based rate authority; we directed blanket certificate holders to file their notifications in Docket No. RM03-10.²⁵

20. We received initial notifications by or on behalf of 756 market participants in December 2003 and January 2004. Since then, we have received only 26 notifications in Docket No. EL01-118 of subsequent changes in reporting status from market-based rate sellers and 24 notifications in Docket No. RM03-10 from blanket certificate holders. In several cases a company filed the same notification in both dockets; in other cases the same company filed more than one notification in a docket. During this period, however, price index developers have reported increases in both the number of transactions being reported and in the number of market participants reporting trade data to them.²⁶ It is possible that some market participants have overlooked the requirement to notify the Commission of changes in their reporting status.

21. Accordingly, we hereby remind all market-based rate sellers subject to the Market Behavior Rules, and all blanket certificate holders subject to Order No. 644, of their obligation to file

notifications of changes in reporting status within 15 days of the date of such changes. We also waive the 15 day requirement for any market participants that have changed their reporting status but failed to notify us of that fact. Such market participants may file notifications of any changes since their initial notification no later than August 1, 2005.

The Commission Orders

(A) *The Policy Statement on Natural Gas and Electric Price Indices* is clarified as discussed in the body of this order.

(B) The requirement to file notifications of changes in reporting status within 15 days of the date of the change is waived until August 1, 2005, for any market-based rate sellers or blanket certificate holders who file notifications for any changes in status that have occurred since their initial notification.

By the Commission.

Deputy Secretary.
