Federal Energy Regulatory Commission

[Docket Nos. ER08-275-000, ER08-275-001]

Santa Maria Cogen, Inc.; Notice of Issuance of Order

January 16, 2008.

Santa Maria Cogen, Inc. (Santa Maria), filed an application for market-based rate authority, with accompanying tariff. The proposed market-based rate tariff provides for the sale of energy, capacity and ancillary services at market-based rates. Santa Maria also requested waivers of various Commission regulations. In particular, Santa Maria requested that the Commission grant blanket approval under 18 CFR Part 34 of all future issuances of securities and assumptions of liability by Santa Maria.

On January 16, 2008, pursuant to delegated authority, the Director, Division of Tariffs and Market Development—West, granted the requests for blanket approval under Part 34 (Director's Order). The Director's Order also stated that the Commission would publish a separate notice in the **Federal Register** establishing a period of time for the filing of protests.

Accordingly, any person desiring to be heard concerning the blanket approvals of issuances of securities or assumptions of liability by Santa Maria, should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. 18 CFR 385.211, 385.214 (2007). The Commission encourages the electronic submissions of protests using the FERC Online link at <http://www.ferc.gov>.

Notice is hereby given that the deadline for filing protests is February 15, 2008.

Absent a request to be heard in opposition to such blanket approvals by the deadline above, Santa Maria is authorized to issue securities and assume obligations or liabilities as a

guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of Santa Maria, compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approvals of Santa Maria's issuance of securities or assumptions of liability.

Copies of the full text of the Director's Order are available from the Commission's Public Reference Room, 888 First Street, NE., Washington, DC 20426. The Order may also be viewed on the Commission's Web site at <http://www.ferc.gov>, using the eLibrary link. Enter the docket number excluding the last three digits in the docket number filed to access the document. Comments, protests, and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a) (1) (iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

Secretary.

Title: Identification, Listing and Rulemaking Petitions (Renewal).

ICR Number: EPA ICR Number 1189.20, OMB Control Number 2050-0053.

ICR Status: This ICR is scheduled to expire on January 31, 2008. Under OMB regulations, the Agency may continue to

conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Under the authority of the Resource Conservation and Recovery Act of 1976 (RCRA), as amended, Congress directed the U.S. Environmental Protection Agency (EPA) to implement a comprehensive program for the safe management of hazardous waste. In addition, Congress wrote that "[a]ny person may petition the Administrator for the promulgation, amendment or repeal of any regulation" under RCRA (section 7004(a)).

40 CFR Parts 260 and 261 contain provisions that allow regulated entities to apply for petitions, variances, exclusions, and exemptions from various RCRA requirements. In this ICR, EPA presents a comprehensive description of these paperwork requirements and estimates the total annual burden and cost to respondents and the government.

Burden Statement: The annual public reporting burden for this ICR is estimated to average 27 hours per response, and the annual recordkeeping burden for this ICR is estimated to average 2 hours per response.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Respondents/Affected Entities: Business/industries subject to the regulations under 40 CFR Parts 260 and 261.

Estimated Number of Respondents: 2,535.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 73,752 hours.

Estimated Total Annualized Cost Burden: \$11,917,572 (includes \$9,239,315 annualized O&M costs and \$2,678,259 annualized labor costs).

Changes in the Estimates: There is a decrease of 2,177 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. The burden decrease is an adjustment to the existing estimates based on data gathered through consultations with EPA Regional and State offices and the regulated community, not due to program changes.

Dated: January 17, 2008.

Sara Hisel-McCoy,

Director, Collection Strategies Division.
