SUPPLEMENTARY INFORMATION: The Annual Refiling Survey (ARS) is used in conjunction with the Unemployment Insurance tax reporting system in each State. The primary purpose of the ARS is to verify or to correct the North American Industry Classification System code assigned to establishments as well as to obtain accurate mailing and physical location addresses of establishments. Federal, State, and local government officials as well as private researchers depend on accurate geographical and industrial coding based on the 2017 North American Industry Classification System Manual. BLS routinely shares NAICS codes with the Census Bureau to improve consistency, reduce costs and burden, and improve the accuracy of

their products. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on December 14, 2023 (88 FRN 86681).
