

Kapiolani Blvd., Suite 1110, Honolulu, HI 96814-4700, or the Pacific Islands Region website at www.fpir.noaa.gov.

Send completed applications to NMFS PIR, Attn: ASLE Permit Upgrade, 1601 Kapiolani Blvd., Suite 1110, Honolulu, HI 96814-4700.

FOR FURTHER INFORMATION CONTACT:

Walter Ikehara, NMFS PIR, Tel (808)944-2275, Fax (808) 973-2940.

SUPPLEMENTARY INFORMATION: On May 25, 2005, NMFS published a final rule that established a limited entry program for the pelagic longline fishery based in American Samoa, under Amendment 11 to the Fishery Management Plan for Pelagic Fisheries in the Western Pacific Region (70 FR 29646). American Samoa longline limited entry permits were established for four vessel size classes, based on length:

- a. Class A - less than or equal to 40 ft (12.2 m),
- b. Class B (and B-1) - over 40 ft (12.2 m) to 50 ft (15.2 m) inclusive,
- c. Class C (and C-1) - over 50 ft (15.2 m) to 70 ft (21.3 m) inclusive, and
- d. Class D (and D-1) - over 70 ft (21.3 m).

A total of 60 American Samoa longline limited entry permits is allowed in this limited access fishery. The limited entry program allowed for a total of 26 permit upgrades to be made available for the exclusive use of permit holders in Class A, distributed over a four-year period following the issuance of initial limited entry permits in late 2005, and 2009 is the last year of the upgrade program. Nineteen permit upgrades are available: 13 for vessel Class B-1 and six for Class C-1.

The Regional Administrator may issue Class B-1 and C-1 permit upgrades only to persons who currently hold a Class A permit and who participated in the American Samoa pelagic longline fishery before March 22, 2002. The highest priority will be given to those with the earliest date of documented participation. Those receiving upgraded permits must surrender their Class A permits and the surrendered permits are deducted from the allowed Class A permit total. This notice announces the availability of permit upgrades and solicits applications for the upgrades.

On January 28, 2009, NMFS published a notice soliciting applications for American Samoa longline permits (70 FR 4942). In August 2009, NMFS issued permits to certain applicants, and the holders of Class A permits issued in August 2009 may now apply for upgrades.

Complete applications must include the completed and signed application form (see **ADDRESSES**), legible copies of

documents supporting historical participation in the American Samoa pelagic longline fishery, and payment for the non-refundable application processing fee. Documents supporting participation should show that fishing was conducted using longline gear. Applications must be received by NMFS by November 9, 2009 to be considered for eligibility for the 2009 permit upgrades. Applications will not be accepted if received after that date.

Authoritative additional information on the American Samoa limited entry program may be found in the Code of Federal Regulations, Title 50, part 665.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 2, 2009.

Alan D. Risenhoover,

Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Hot-Rolled Carbon Steel Products From India: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: Joy Zhang, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, Room 4014, 14th Street and Constitution Ave., NW., Washington, DC 20230, *telephone:* (202) 482-1168.

SUPPLEMENTARY INFORMATION:

Background

On February 2, 2009, the U.S. Department of Commerce ("the Department") published a notice of initiation of the administrative review of the antidumping duty order on hot-rolled carbon steel products from India covering the period December 1, 2008, through November 30, 2008. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 74 FR 5821 (February 2, 2009). The preliminary results are currently due no later than September 2, 2009.

Extension of Time Limit for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"),

requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order for which a review is requested. Section 751(a)(3)(A) of the Act further states that if it is not practicable to complete the review within the time period specified, the administering authority may extend the 245-day period to issue its preliminary results to up to 365 days.

Due to the complexity of the issues in this administrative review, in particular the overlapping issues associated with the ongoing countervailing duty review of the same product, we have determined that it is not practicable to complete the preliminary results within the 245-day period. Therefore, in accordance with section 751(a)(3)(A) of the Act, we are extending the time period for issuing the preliminary results of the review by 120 days. The preliminary results are now due no later than December 31, 2009. The final results continue to be due 120 days after publication of the preliminary results.

This notice is issued and published in accordance with section 751(a)(3)(A) of the Act.

Dated: September 2, 2009.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.
