ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-1156.

Title: 47 CFR 43.62, Annual Reporting Requirements for U.S. Providers of International Services and Circuits.

Form No.: N/A.

Type of Review: Revision of a currently approved information collection.

Respondents: Business or other for-profit.

Number of Respondents: 2,328 respondents; 14,606 responses.

Estimated Time per Response: 1-50 hours.

Frequency of Response: Annual reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained under Sections 1, 4(i)-4(j), 11, 201-205, 211, 214, 219, 220, 303(r), 309 and 403 of the Communications Act of 1934, as amended, 47 U.S.C. 151, 154(i)-154(j), 161, 201-205, 211, 214, 219-220, 303(r), 309, 403.

Total Annual Burden: 14,606 hours.

Annual Cost Burden: \$2,400.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality:

In general, there is no need for confidentiality with this collection of information. The Commission, however, will allow filing entities to seek confidential treatment of their data.

Needs and Uses: The Federal Communications Commission (Commission) is requesting that the Office of Management and Budget (OMB) approve a revision of OMB Control No. 3060-1156. The purpose of the revision is to obtain OMB approval of the annual reporting requirements stipulated under 47 CFR 43.62 which requires that entities providing international services file annual circuit capacity reports and annual traffic and revenue reports, in a format set out in a Filing Manual.

Upon the OMB's approval of the proposed changes in this information collection, the Commission plans to eliminate two existing information collections from the Commission's inventory, OMB Control Number 3060-0106 (47 CFR 43.61 annual traffic and revenue reports) and OMB Control Number 3060-0572 (47 CFR 43.82 annual circuit-status reports).

In order for carriers to comply with annual reporting requirements stipulated in 47 CFR 43.62, the Commission is developing a web-based system for filers to submit their reports. Filers will access the filing system via a portal on the FCC Web site, www.FCC.gov. The software for the web-based system is now under development and the Commission is seeking final OMB approval for the new requirements in 47 CFR 43.62, the new consolidated Filing Manual and the electronic filing of the data.

Without this collection of information, the Commission would not be able to ensure compliance with its international rules and policies. Furthermore, the Commission would not have sufficient information to take measures to prevent anticompetitive conduct in the provision of international communications services. The Commission would not have adequate information to respond to failures in the U.S.-international market. The Commission would not be able to promote effective competition in the global market for communications services. The lack of effective competition would adversely affect the U.S. revenues in the telecommunications industry. The agency would not be able to comply with the international regulations stated in the World Trade Organization (WTO) Basic Telecom Agreement. Carriers and other entities outside the Commission, such as other government agencies, international organizations, and academia, use the information to analyze industry trends. Other government agencies use the information in merger analyses and negotiations with foreign countries. If the information collection was not conducted, carriers, government agencies and other entities would not have accurate industry data available in order to conduct analyses.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary, Office of the Managing Director.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0783]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before December 5, 2014. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Submit your PRA comments to Benish Shah, Federal Communications Commission, via the Internet at Benish.Shah@fcc.gov. To submit your PRA comments by email send them to: PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Benish Shah, Office of Managing Director, (202) 418-7866.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0783.

Title: Section 90.176, Coordination Notification Requirements on Frequencies Below 512

MHz or at 764-776/794-806 MHz.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 15 respondents; 3,900 responses.

Estimated Time per Response: 0.5 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection (IC) is contained in sections 47 U.S.C. 154(i), 161, 303(g), 303(r) and 332(c)(7) of the Communications Act of 1934, as amended.

Total Annual Burden: 1,950 hours.

Annual Cost Burden: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: This collection will be submitted as an extension (no change in the reporting requirements and/or third party disclosure requirements) after this 60 day comment period to Office of Management and Budget (OMB) in order to obtain the full three year clearance. Section 90.176 requires each Private Land Mobile frequency coordinator to provide, within one business day, a listing of their frequency recommendations to all other frequency coordinators in their respective pool, and if requested, an engineering analysis.

Any method can be used to ensure this compliance with the "one business day requirement" and must provide, at a minimum, the name of the applicant; frequency or frequencies recommended; antenna locations and heights; and effective radiated power; the type(s) of emissions; the description of the service area; and the date and time of the recommendation. If a conflict in recommendations arises, the effected coordinators are jointly responsible for taking action to resolve the conflict, up to and including notifying the Commission that an application may have to be returned.

This requirement seeks to avoid situations where harmful interference is created because two or more coordinators recommend the same frequency in the same area at approximately the same time to different applicants.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.
