

electronic filing to all space station and earth station applications, related pleadings, and other filings governed by Part 25. Direct Broadcast Satellite (DBS) and Digital Audio Radio Service (DARS) licensees can now use a streamlined procedure when relocating satellites for fleet management purposes. Currently, this procedure is only limited to Geostationary Satellite Orbit (GSO) licensees. The Commission referred to such relocations as "fleet management" license modifications. This change will enable the Commission to act on DBS fleet management modifications faster. Under this streamlined procedure, the DBS and DARS licensees may modify its license without prior authorization, but upon 30 days prior notice to the Commission and any potentially affected licensed spectrum user. In order to utilize the streamlined procedure, the operator is required to meet certain technical requirements contained in Part 25.
