

environmental effects, reasonable alternatives (including alternative facility sites and pipeline routes), and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that your comments are timely and properly recorded, please follow these instructions:

- Send an original and two copies of your letter to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Room 1A, Washington, DC 20426.
- Label one copy of your comments for the attention of OEP/DG2E/Gas Branch 3.
- Reference Docket No. CP07–53–001 on the original and both copies.
- Mail your comments so that they will be received in Washington, DC on or before March 14, 2008.

The Commission strongly encourages electronic filing of any comments in response to this NOI. For information on electronically filing comments, please see the instructions on the Commission's Web site at <http://www.ferc.gov> under the "e-Filing" link and the link to the User's Guide as well as information in 18 CFR 385.2001(a)(1)(iii). Before you can file comments, you will need to create a free account, which can be accomplished on-line.

Becoming an Intervenor

In addition to involvement in the EIS scoping process, you may want to become an official party to the proceeding known as an "intervenor." Intervenor play a more formal role in the process. Among other things, intervenors have the right to receive copies of case-related Commission documents and filings by other intervenors. Likewise, each intervenor must send one electronic copy (using the Commission's eFiling system) or 14 paper copies of its filings to the Secretary of the Commission and must send a copy of its filings to all other parties on the Commission's service list for this proceeding.

If you want to become an intervenor you must file a motion to intervene according to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214).³ Only intervenors have the right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good

cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your environmental comments considered.

Environmental Mailing List

All commentors will be retained on our mailing list. If you do not want to send comments at this time but still want to keep informed and receive copies of the Draft and Final EISs, you must return the Mailing List Retention Form (Appendix 2). Also, indicate on the form your preference for receiving a paper version in lieu of an electronic version of the EIS on CD-ROM. If you do not return this form, we will remove your name from our mailing list.

Please note, if you have previously submitted comments or returned a Mailing List Retention Form, you are already on our mailing list and do not need to re-submit comments or a Mailing List Retention Form.

The eLibrary link on the FERC Internet Web site also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

In addition, the FERC now offers a free service called eSubscription that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. To register for this service, go to <http://www.ferc.gov/esubscribenow.htm>.

Public meetings or site visits will be posted on the Commission's calendar located at <http://www.ferc.gov/EventCalendar/EventsList.aspx> along with other related information.

Finally, Downeast has established an Internet Web site for this project at <http://www.downeastlng.com>. The Web

site includes a project overview, status, and answers to frequently asked questions. You can also request additional information by emailing Downeast at info@downeastlng.com.

also serve a copy of the document on that resource agency. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

k. *Description of Request:* Upper Peninsula Power Company has filed an Environmental Report addressing its intent to rebuild the Silver Lake Reservoir, part of the Dead River Hydroelectric Project (FERC No. 10855). The project consists of three separate developments: Silver Lake, Dead River (Hoist), and McClure. Silver Lake serves as a storage reservoir for downstream power generation. In May 2003, an emergency fuse plug on the Silver Lake Reservoir activated, resulting in the release of a large quantity of water, rock and sediment downstream. A river recovery project has been implemented, however, the elevation of the reservoir is significantly reduced. The licensee is proposing to rebuild Silver Lake Reservoir, which requires constructing a new dam #2 to replace the prior emergency fuse plug, raising the height of the main dam and a series of smaller dikes and dams that contain the reservoir, adding a new spillway, and raising the level of the current service spillway to the height of the main dam, ending its function as a spillway.

The Commission intends to prepare an environmental document under the National Environmental Policy Act (NEPA) for the Silver Lake Reservoir rebuilding project. The NEPA document will be used by the Commission to identify environmental impacts and to identify measures that would help mitigate the impacts caused by rebuild activities.

In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. Any filings must bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE", as applicable, and the Project Number (P-10855-118) of the particular application to which the filing refers.

p. *Agency Comments:* Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

q. Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at <http://www.ferc.gov> under the "e-Filing" link.
