

in accordance with Title IV of the MMPA (16 U.S.C. 1421 *et seq.*).

Pursuant to the provisions of Section 104(c)(3)(A) of the MMPA and implementing regulations at 50 CFR 216.33(e)(6), NMFS has issued this permit amendment without making the application available for a 30-day public comment period. Specifically, these provisions allow NMFS to waive the comment period in a situation where the health and life of an ESA-listed marine mammal is threatened and no reasonable alternative is available. Whereas the MMPA provides authorization for federal, state, and local government officials to take marine mammals in a humane manner if such taking is for the protection or welfare of the mammal, there are no comparable provisions under the ESA. Without this permit amendment, there would be no permit allowing for proper response to imperiled ESA-listed marine mammals. NMFS therefore determined that there was a compelling reason for waiving the 30-day public review and comment period on the application.

Issuance of this permit, as required by the ESA, was based on a finding that such permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.
