

of assisting the Department's efforts to respond to a suspected or confirmed breach of the security or confidentiality of information maintained in this system of records, when the information disclosed is relevant and necessary for that assistance.

Information about an individual may also be disclosed to parties outside HHS without the individual's prior, written consent for any of the uses authorized directly in the Privacy Act at 5 U.S.C. 552a(b)(2) and (b)(4)–(11).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM—

STORAGE: Records are maintained in electronic and paper form. Currently, OMHA headquarters and field offices keep ALJ working files in paper form. New technology will allow OMHA to store information electronically in the Electronic Case Adjudication and Processing Environment (ECAPE). As a result, records in this system may be paper and electronic.

RETRIEVABILITY: Information is retrieved by name, Social Security Number (SSN), Health Insurance Claim Number (HICN), and assigned provider number or appeal number.

SAFEGUARDS: Only authorized OMHA personnel that have a need for the information in the performance of their official duties are permitted access to the information.

Security measures for electronic access include a minimum of a two-factor authentication solution (such as the use of a Personal Identity Verification (PIV) Card and Personal Identification Number (PIN)) to enter the computer system that will maintain the data, and storage of the computerized records in secured areas that are accessible only to employees who require the information in performing their official duties. Manually maintained records are kept in locked cabinets or in otherwise secure areas.

Personnel allowed access to the records have been trained in the Privacy Act and information security requirements. Employees who maintain records in this system of records are instructed not to release data to an authorized recipient until the intended recipient agrees to implement appropriate management, operational and technical safeguards sufficient to protect the confidentiality, integrity and availability of the information and information systems and to prevent unauthorized access.

This system will conform to all applicable federal laws and regulations and federal and HHS policies and

standards as they relate to information security and data privacy. These laws and regulations may apply but are not limited to: The Privacy Act of 1974; the Federal Information Security Management Act of 2002; the Computer Fraud and Abuse Act of 1986; the Health Insurance Portability and Accountability Act of 1996; the E-Government Act of 2002, the Clinger-Cohen Act of 1996; the Medicare Modernization Act of 2003, and the corresponding implementing regulations. OMB Circular A–130, Management of Federal Resources, Appendix III, Security of Federal Automated Information Resources also applies. Federal and HHS policies and standards include but are not limited to: All pertinent National Institute of Standards and Technology publications; the HHS Information Systems Program Handbook and the CMS Information Security Handbook.

RETENTION AND DISPOSAL: OMHA will destroy electronic and paper records by deleting or shredding them 3 years after the final action is taken (see NARA-approved records schedule DAA–0468–2012–0003).
