

DEPARTMENT OF TRANSPORTATION**Federal Transit Administration****Announcement of Competitively Selected Fiscal Year 2001 Projects for the Job Access and Reverse Commute Competitive Grant Program**

AGENCY: Federal Transit Administration, DOT.

ACTION: Notice.

SUMMARY: The U.S. Department of Transportation (DOT), Federal Transit Administration (FTA), announces the selection of competitively submitted proposals for Fiscal Year (FY) 2001 funding under the Job Access and Reverse Commute Grants program funding, authorized under section 3037 of the Transportation Equity Act for the 21st Century (TEA-21) Pub. L. 105-178. The Notice also provides information on how to proceed with the submission of a final application. Projects were competitively selected from projects submitted to FTA in (FY) 2000. Funding limitations in (FY) 2000 prevented FTA from funding or fully funding a number of qualified projects in that fiscal year.

This announcement is available on the DOT's FTA website at [<http://www.fta.dot.gov/wtw/>].

DATES: All applications for selected projects must be completed and filed with the appropriate FTA Regional Offices by April 1, 2001. If there are extenuating circumstances that prevent filing an electronic application by that time, please contact the appropriate FTA regional administrator for a filing extension. Failure to file may mean that funding selection decisions may be rescinded. FTA regional offices will provide guidance on how to file electronic applications.

FOR FURTHER INFORMATION CONTACT: The appropriate FTA Regional

Administrator for application-specific information and issues (Appendix A). For general program information, refer to the Job Access and Reverse Commute Competitive Grants Notice, 65 Fed. Reg. 13210 *et seq.*, March 10, 2000. A TDD is available at 1-800-877-8339 (TDD/FIRS). The notice can also be accessed through FTA's web site, [www.fta.dot.gov/wtw/].

Background

In (FY) 2001, the Congress provided \$99,780,000 for the Job Access and Reverse Commute Grants program. Congress designated \$75,240,000 of this funding for projects in specified states, localities and, in some cases, to specific organizations. These designations are listed in Appendix B.

FTA has decided that the remaining (FY) 2001 selections would be chosen from meritorious proposals submitted in (FY) 2000 that were only partially funded or not funded because of funding limitations in (FY) 2000. The (FY) 2000 selections were announced in the **Federal Register** on October 16, 2000 and may be found on the FTA website, [<http://www.fta.dot.gov/wtw/>].

FTA has made this decision because project proposals submitted in (FY) 2000 far exceeded FTA's funding resources available for major urbanized areas with populations greater than 200,000 and for small urban and rural areas with populations of less than 50,000. Additionally, FTA wishes to continue timely support of meritorious projects previously funded by FTA. Selecting proposals at this time rather than issuing a new (FY) 2001 solicitation will significantly speed project implementation. To afford a full opportunity to all interested parties to participate in the Job Access and Reverse Commute Grants program, FTA intends to issue a new solicitation for

(FY) 2002 funding in the near future. This will permit FTA to announce proposal selections at the beginning of (FY) 2002 rather than at the end of the year as has occurred in the past. We believe this will improve program timing and make program announcements more predictable in the future.

SUPPLEMENTARY INFORMATION: The Job Access and Reverse Commute Grants program is intended to establish an area-wide regional planning approach to job access challenges. This is accomplished through a coordinated transportation/human services planning activity developed as part of or in conjunction with the established transportation planning process conducted by MPOS in metropolitan areas and under state guidance in rural and small urban areas. Projects derived from this process support the implementation of a variety of transportation services that may be needed to connect welfare recipients to jobs and related employment activities. All projects funded under the Job Access and Reverse Commute Grants program must be derived from this area-wide planning process.

The Job Access and Reverse Commute Grants program has two major goals: to provide transportation services in urban, suburban and rural areas to assist welfare recipients and low income individuals in gaining access to employment opportunities; and to increase collaboration among transportation providers, human service agencies, employers, metropolitan planning organizations (MPOs), states, and affected communities and individuals.

The following table lists the successful competitive applicants for fiscal year 2001, by state:

Pre-Award Authority

FTA is providing pre-award spending authority for this program which permits successful applicants to incur costs on eligible projects without prejudice to possible Federal participation in the cost of the project or projects. However, in exercising pre-award authority, successful applicants must comply with all Federal requirements. Failure to do so will render a project ineligible for FTA financial assistance. Successful applicants must consult the appropriate regional office regarding the eligibility of the project for future FTA funds or the applicability of the conditions and Federal requirements. Pre-award spending authority is provided to projects selected and announced by this notice effective October 23, 2000. Congressionally designated projects are likewise granted pre-award authority effective October 23, 2000. The Department of Transportation (DOT) and Related Agencies Appropriations Act for Fiscal Year 2001 (FY 2001 DOT Appropriations Act) (Pub. L. 106-346) was signed into law by President Clinton on October 23, 2000.

Certifications and Assurances Requirements

In accordance with 49 U.S.C. 5323(n), certifications and assurances have been compiled for the various FTA programs. Before FTA may award a Federal grant, each successful applicant must provide to FTA all certifications and assurances required by Federal laws and regulations applicable to itself and its project. A state providing certifications and assurances on behalf of its prospective subrecipients should obtain sufficient documentation from those subrecipients needed to provide informed certifications and assurances. A successful applicant for funds under the Job Access and Reverse Commute Grants program will be required to comply with the requirements of the FTA's Annual Certifications and Assurances. It is important that each successful applicant be familiar with all certifications and assurances as they are a prerequisite for receiving FTA financial assistance. All successful applicants are advised to read the entire

text of those Certifications and Assurances to be confident of their responsibilities and commitments.

The signature page accompanying the Certifications and Assurances contains the current fiscal year's certifications and, when properly attested to and submitted to FTA, assures FTA that the applicant intends to comply with the requirements for the specific program involved. FTA will not award any federal assistance until the successful applicant provides assurance of compliance by selecting Category I on the signature page and all other categories applicable to itself and its project.

FTA's (FY) 2001 Certifications and Assurances Notice is expected to be published in the **Federal Register** on or about January 18, 2001. They are also available on the World Wide Web at [<http://www.fta.dot.gov/library/legal/ca.htm>]. Copies may also be obtained from FTA regional offices. Applicants that need further assistance should contact the appropriate FTA regional office (see Appendix A) for further information.

U.S. Department of Labor Certification

As a condition of release of Federal funds for this program, Federal Transit law requires that applicants must comply with 49 U.S.C. 5333(b), administered under the Department of Labor's (DOL) Mass Transit Employee Protection Program. These employee protections include the preservation of rights, privileges, and benefits under existing collective bargaining agreements, the continuation of collective bargaining rights, the protection of individual employees against a worsening of their positions related to employment, assurances of employment to employees of acquired mass transportation systems, priority of reemployment, and paid training or retraining. Generally, DOL processes the employee protection certification required under Section 5333(b) in accordance with the procedural guidelines published at 29 CFR 215.3. However, for the Job Access and Reverse Commute Grants program, DOL has proposed to apply appropriate protections without referral for Job

Access and Reverse Commute Grant applications serving populations under 200,000 and to utilize the guidelines for Job Access and Reverse Commute Grant applications serving populations of 200,000 or more. FTA will submit the grant application to DOL for certification.

Grant funds will NOT be released without DOL certification. Where there are questions regarding the DOL certification process and/or information needed by DOL to obtain a labor certification, successful applicants must contact the appropriate FTA regional office (See Appendix A). Additionally, guidance is provided on the World Wide Web at [<http://www.fta.dot.gov/wwt/labor.htm>].

Completed Application

All successful applicants must now proceed to complete their grant application by fully documenting all the Job Access and Reverse Commute Grants program requirements that were not fully documented when the original grant proposal was submitted. FTA regional offices will advise applicants by letter of any remaining outstanding items, as well as stipulations specific to the Job Access and Reverse Commute Grant projects that need to be addressed and/or fully documented prior to grant approval.

Successful applicants will be notified in writing by the FTA regional offices with further guidance.

Issued on: January 16, 2001.

Nuria I. Fernandez,
Acting Administrator.
