

reducing the burden associated with compliance.

In response to the statutory requirement in section 4005(c), EPA developed 40 CFR part 239, commonly referred to as the State Implementation Rule (SIR). The SIR describes the State application and EPA review procedures and defines the elements of an adequate State permit program.

The collection of information from the State during the permit program adequacy determination process allows EPA to evaluate whether a program for which approval is requested is appropriate in structure and authority to ensure owner or operator compliance with the revised federal criteria. The SIR does not require the use of a particular application form. Section 239.3 of the SIR, however, requires that all State applications contain the following five components:

(1) A transmittal letter requesting permit program approval.

(2) A narrative description of the State permit program, including a demonstration that the State's standards for non-municipal, non-hazardous waste disposal units that receive CESQG hazardous waste are technically comparable to the part 257, subpart B criteria and/or that its MSWLF standards are technically comparable to the part 258 criteria.

(3) A legal certification demonstrating that the State has the authority to carry out the program.

(4) Copies of State laws, regulations, and guidance that the State believes demonstrate program adequacy.

(5) Copies of relevant State-tribal agreements if the State has negotiated with a tribe for the implementation of a permit program for non-municipal, non-hazardous waste disposal units that receive CESQG hazardous waste and/or MSWLFs on tribal lands.

The EPA Administrator has delegated the authority to make determinations of adequacy, as contained in the statute, to the EPA Regional Administrator. The appropriate EPA Regional Office, therefore, will use the information provided by each State to determine whether the State's permit program satisfies the statutory test reflected in the requirements of 40 CFR part 239. In all cases, the information will be analyzed to determine the adequacy of the State's permit program for ensuring compliance with the federal revised criteria.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control

numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The total burden for States, territories, and the EPA regions for the collection and evaluation of the information under this ICR is estimated to be about 7,210 hours and \$352,800. The estimated burden includes time for reviewing instructions, searching existing data sources, gathering and maintaining necessary data, and completing and reviewing the collection of information. The ICR supporting statement describes the assumptions and information sources used to develop the burden estimate for this ICR. For a copy of the supporting statement, contact Craig Dufficy at (703) 308-9037, or e-mail dufficy.craig@epa.gov. Requests should reference the document title, "Supporting Statement for EPA Information Collection Request #1608.04". There is no recordkeeping burden associated with this ICR.

Dated: December 20, 2004.

Matt Hale,

Director, Office of Solid Waste.

BILLING CODE 6560-50-P

FEDERAL MARITIME COMMISSION

Notice of Agreement Filed

The Commission hereby gives notice of the filing of the following agreement under the Shipping Act of 1984. Interested parties may obtain copies of agreements by contacting the Commission's Office of Agreements at 202-523-5793 or via e-mail at tradeanalysis@fmc.gov. Interested parties may submit comments on an agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days of the date this notice appears in the **Federal Register**.

Agreement No.: 011893.

Title: Westwood/Star Sailing and Space Charter Agreement.

Parties: Westwood Shipping Lines, Inc. and Star Shipping A.S.

Filing Party: Pamela J. Auerbach, Esq.; Kirkland & Ellis LLP; 655 Fifteenth Street, NW., Washington, DC 20005.

Synopsis: The proposed agreement would authorize the parties to operate a service and share space in the trade between the U.S. and Canadian Pacific Coasts and ports in Japan, Korea, and China.

By Order of the Federal Maritime Commission.

Dated: December 29, 2004.

Karen V. Gregory,

Assistant Secretary.
