We collect the information either annually or every other year, depending on the respondent's country of residence.

Respondents are Social Security recipients engaged in farming activities outside the United States.

Application Deadline: Thursday, June 24, 2010.

Executive Summary: The Educational Information and Resources Branch, Office of Global Educational Programs, Bureau of Educational and Cultural Affairs announces an open competition for a Survey of International Educational Exchange Activity with the United States. Public and private non-profit organizations meeting the provisions described in Internal Revenue Code section 26 U.S.C. 501(c)(3) may submit proposals to conduct a statistical survey (census) of foreign nationals enrolled in institutions of higher learning in the United States; foreign scholars at U.S. institutions; and U.S. students participating in study abroad programs.

I. Funding Opportunity Description

Authority

Overall grant making authority for this program is contained in the Mutual Educational and Cultural Exchange Act

of 1961, Public Law 87-256, as amended, also known as the Fulbright-Hays Act. The purpose of the Act is "to enable the Government of the United States to increase mutual understanding between the people of the United States and the people of other countries * * *; to strengthen the ties which unite us with other nations by demonstrating the educational and cultural interests, developments, and achievements of the people of the United States and other nations * * * and thus to assist in the development of friendly, sympathetic and peaceful relations between the United States and the other countries of the world." The funding authority for the program above is provided through legislation.

Purpose

To gain an accurate and up-to-date picture of international educational exchange activity in the United States in fulfillment of the Bureau's mandate, under the Fulbright-Hays Act, to promote mutual understanding through international educational exchange. The survey will focus on foreign students, foreign scholars, U.S. students studying overseas in credit-bearing programs, and enrollees in intensive English language programs.

Guidelines

Proposals to conduct this project should describe plans for a statistical survey that will offer a detailed and comprehensive picture of the number and academic characteristics (e.g., major fields of study or program, level of study) of non-immigrant foreign nationals (i.e., excluding permanent residents and refugees) enrolled as students or affiliated as scholars in American institutions of higher learning, as well as the number of U.S. students studying abroad. Topics that should be covered in the survey include the number of foreign students and scholars, their gender and countries of origin. Information should be included about students' academic levels (undergraduate, graduate, post-doctorate), fields of study, primary sources of financial support, the financial contributions they make while in the United States, and geographic locations. Applications should include a plan to conduct research that increases understanding of student exchange
