

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 62**

[KS 105–1105b; FRL–6733–8]

Approval and Promulgation of State Plans for Designated Facilities and Pollutants; Control of Emissions From Hospital/Medical/Infectious Waste Incinerators (HMIWI); State of Kansas**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed action.

SUMMARY: EPA proposes to approve the state of Kansas' section 111(d) plan for controlling emissions from existing HMIWIs. The plan was submitted to fulfill the requirements of sections 111 and 129 of the Clean Air Act. The state plan establishes emission limits and controls for sources constructed on or before June 20, 1996.

In the final rules section of the **Federal Register**, EPA is approving the state's submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial action and anticipates no relevant adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn, and all public comments received will be addressed in a subsequent final rule based on this proposed action. Any parties interested in commenting on this document should do so at this time.

DATES: Comments must be received in writing by August 14, 2000.

ADDRESSES: Comments may be mailed to Wayne Kaiser, Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101.

FOR FURTHER INFORMATION CONTACT: Wayne Kaiser at (913) 551–7603.

SUPPLEMENTARY INFORMATION: See the information provided in the direct final rule which is located in the rules section of the **Federal Register**.

Dated: June 20, 2000.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**48 CFR Part 1837****Acquisition of Training Services****AGENCY:** National Aeronautics and Space Administration (NASA).**ACTION:** Proposed rule.

SUMMARY: This proposed rule would amend the NASA FAR Supplement (NFS) by removing Subpart 1837.70—Acquisition of Training, to conform the acquisition of training with FAR Part 6. **DATES:** Comments should be submitted on or before September 12, 2000.

ADDRESSES: Interested parties should submit written comments to James H. Dolvin, NASA Headquarters, Office of Procurement, Contract Management Division (Code HK), Washington, DC 20546. Comments may also be submitted by e-mail to: jdolvin1@hq.nasa.gov.

FOR FURTHER INFORMATION CONTACT: James H. Dolvin, (202) 358–1279, or jdolvin1@hq.nasa.gov.

SUPPLEMENTARY INFORMATION:**A. Background**

In 1991, Subpart 1837.70—Acquisition of Training, was added to the NFS. Section 1837.7000, Acquisition of off-the-shelf training courses, provided that the Government Employees Training Act of 1958, 5 U.S.C. 4101 *et seq.*, could be used as the authority for acquisition of “non-Governmental off-the-shelf training courses which are available to the public.” Section 1837.7001, Acquisition of new training courses, provided that acquisition of new training courses “developed to fill a specific NASA need” must be conducted in accordance with the FAR. This subpart is being removed because it has caused confusion within NASA about the relevance of the FAR to training service procurement.

B. Regulatory Flexibility Act

NASA certifies that this rule will not have a significant economic impact on a substantial number of small business entities within the meaning of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) because the deletion of this subpart will not alter the manner in which NASA is required to acquire training.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes to the NFS do not impose recordkeeping or information collection requirements, or

collections of information from offerors, contractors, or members of the public which require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*
