

However, the MBDA National Director may not make any selection, or he may select an application out of rank order for the following reasons:

(a) A determination that an application better addresses one or more of the funding priorities for this competition. The National Director (or his/her designee) reserves the right to conduct one or more site visits (subject to the availability of funding), in order to make a better assessment of an applicant's capability to achieve the funding priorities; or

(b) The availability of MBDA funding. Prior to making a final recommendation to the Grants Officer, MBDA may request that the apparent winner of the competition provide written clarifications (as necessary) regarding its application.

Intergovernmental Review:

Applications under this program are not subject to Executive Order 12372, "Intergovernmental Review of Federal Programs."

Limitation of Liability: In no event will MBDA or the Department of Commerce be responsible for proposal preparation costs if this program fails to receive funding or is cancelled because of other MBDA or Department of Commerce priorities. All funding periods are subject to the availability of funds to support the continuation of the project and the Department of Commerce and MBDA priorities. Publication of this notice does not obligate the Department of Commerce or MBDA to award any specific cooperative agreement or to obligate all or any part of available funds.

Universal Identifier: Applicants should be aware that they will be required to provide a Dun and Bradstreet Data Universal Numbering System (DUNS) number during the application process. See the June 27, 2003 **Federal Register** notice (68 FR 38402) for additional information. Organizations can receive a DUNS number at no cost by calling the dedicated toll-free DUNS Number request line at 1-866-705-5711 or by accessing the Grants.gov Web site at <http://www.Grants.gov>.

National Oceanic and Atmospheric Administration

RIN 0648-XE09

Fisheries of the Exclusive Economic Zone Off Alaska; Groundfish Observer Program; Notice of Observer Program Public Workshop

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of public workshop.

SUMMARY: NMFS will present a public workshop on the implementation of new Alaska groundfish observer sampling protocols for fishery participants and other interested parties. At the workshop, NMFS will provide an overview of the changes to observer sampling protocols, discuss alterations made in the observer electronic data submission and communications system, and answer questions. NMFS is conducting this public workshop to provide assistance to fishery

participants in understanding the sampling protocols which will be used by groundfish observers in 2008 and beyond.

DATES: The workshop will be held on Tuesday, December 11, 2007, from 10 a.m. to 1 p.m. Pacific standard time.

ADDRESSES: The workshop will be held at the Nordic Heritage Museum, 3014 NW 67th Street, Seattle, WA 98117.

FOR FURTHER INFORMATION CONTACT: Jennifer Ferdinand, 206-526-4076 or Jennifer.Ferdinand@noaa.gov.

SUPPLEMENTARY INFORMATION:

Groundfish fisheries in waters of the Gulf of Alaska (GOA) and Bering Sea and Aleutian Islands management area (BSAI) are managed under quotas set annually for groundfish species and for several other species that the groundfish fishery is prohibited from retaining. These quotas may be apportioned among areas, seasons, gear types, processor and catcher vessel sectors, cooperatives, and individual fishermen. Both retained and discarded catch are credited against these annual quotas, which generally are based on stock assessments generated principally by NMFS and on recommendations from the North Pacific Fishery Management Council. NMFS' Alaska Region is responsible for monitoring the progress of fisheries toward attainment of these quotas and allocations, and for closing the fisheries when quotas are reached. Stock assessments, quota monitoring, and management require collection of data from the fishery to account for all groundfish and prohibited species catch, including the portion of the catch that is discarded. North Pacific groundfish observers aboard vessels and at shoreside or floating stationary processors collect the data necessary for these purposes.

The Alaska Fisheries Science Center's groundfish observer program has embarked on an ambitious set of observer data collection changes for implementation in the 2008 fishing year. The new sampling procedures eliminate much of the need for observers to summarize and calculate information at sea and take steps to ensure all data points are recorded at the level from which they are observed.

NMFS is conducting a public workshop to provide assistance to fishery participants in reviewing the new observer sampling protocols and the changes that were necessary to the observer electronic data submission and communications system. Additionally, NMFS will answer questions from workshop participants. For further information on the groundfish observer

program, please visit the NMFS Alaska Fisheries Science Center website at <http://www.afsc.noaa.gov/FMA/.htm>.

Special Accommodations

This workshop is physically accessible to people with disabilities. Requests for special accommodations should be directed to Jennifer Ferdinand (see **FOR FURTHER INFORMATION CONTACT**) before December 6, 2007.
