SUPPLEMENTARY INFORMATION:

Regulatory Information

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. In keeping with 5 U.S.C. 553(b)(B) and 553(d)(3), the Coast Guard

finds that good cause exists for not publishing a NPRM and for making this rule effective less than 30 days after publication in the **Federal Register**. The swimming event will take place on September 15, 2001. The special local regulations are necessary to provide for the safety of event participants, support vessels, spectator craft and other vessels transiting the event area. For the safety concerns noted, it is in the public interest to have these regulations in effect during the event. In addition, advance notifications will be made via the Local Notice to Mariners, marine information broadcasts, and area newspapers.

Background and Purpose

On September 15, 2001, Diamond State Games 2001 will sponsor the Escape from Fort Delaware Triathlon. The swimming segment of the triathlon will be conducted on a portion of the Delaware River between Pea Patch Island and Delaware City, Delaware. A fleet of spectator vessels is expected to gather near the event site to view the triathlon. To provide for the safety of participants, spectators and other transiting vessels, the Coast Guard will temporarily restrict vessel traffic in the event area during the event.

Discussion of Regulations

The Coast Guard is establishing temporary special local regulations on specified waters of the Delaware River between Pea Patch Island and Delaware City, Delaware. The temporary special local regulations will be in effect from 7:45 a.m. to 10:15 a.m. eastern time on September 15, 2001. The effect will be to restrict general navigation in the regulated area during the event. Except for persons or vessels authorized by the Coast Guard Patrol Commander, no person or vessel may enter or remain in the regulated area. These regulations are needed to control vessel traffic during the event to enhance the safety of participants, spectators and transiting vessels.

Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979).

Although this regulation prevents traffic from transiting a portion of the Delaware River during the event, the
