

NUCLEAR REGULATORY COMMISSION

[Docket No. 72–10]

Notice of Issuance of Amendment to Materials License SNM–2506; Nuclear Management Company, LLC; Prairie Island Independent Spent Fuel Storage Installation

The U.S. Nuclear Regulatory Commission (NRC or the Commission) has issued Amendment 5 to Materials License SNM–2506 held by the Nuclear Management Company, LLC (NMC) for the receipt, possession, transfer, and storage of spent fuel at the Prairie Island Independent Spent Fuel Storage Installation (ISFSI), located in Goodhue County, Minnesota. The amendment is effective as of the date of issuance.

By application dated August 31, 1999, as supplemented November 8, 1999; and March 13, April 6, and October 16, 2000, NMC requested to amend its ISFSI license to specifically permit the storage of burnable poison rod assemblies (BPRAs) and thimble plug devices (TPDs) within the TN–40 casks used at the Prairie Island ISFSI. This amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

In accordance with 10 CFR 72.46(b)(2), a determination has been made that the amendment does not present a genuine issue as to whether public health and safety will be significantly affected. Therefore, the publication of a notice of proposed action and an opportunity for hearing or a notice of hearing is not warranted. Notice is hereby given of the right of interested persons to request a hearing on whether the action should be rescinded or modified.

Also in connection with this action, the Commission prepared an Environmental Assessment (EA) and Finding of No Significant Impact (FONSI). The EA and FONSI were published in the **Federal Register** on January, 29, 2001 (66 FR 8123).

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of the EA and FONSI are available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/>

ACTION: Notice of public workshop.

SUMMARY: The Executive Director for Operations (EDO) of the Nuclear Regulatory Commission has instructed the NRC staff to resolve several issues resulting from the Independent Safety Assessment of the Maine Yankee Atomic Power Station. Of the eleven items identified by the EDO, four were concerned with analytical code validation, review, documentation and compliance with generic safety evaluations. All of these issues were generic in nature and resulted in the issuance of the two draft documents for public comment that are the subject of this workshop. The public comment period for these draft documents ended on February 15, 2001. It is the purpose of the workshop to exchange information among interested parties on the two documents and the comments received. After considering all comments and information, the NRC would issue the documents in their final form as acceptable guidance to licensees and vendors and to the NRC staff for review of analytical models.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Public Law 104-13, May 22, 1995), this

notice announces that the Office of Personnel Management (OPM) intends to submit to the Office of Management and Budget a request for review of a revised information collection. RI 25-51, Civil Service Retirement System (CSRS) Survivor Annuitant Express Pay Application for Death Benefits, will be used by the Civil Service Retirement System solely to pay benefits to the widow(er) of an annuitant. This application is intended for use in immediately authorizing payments to an annuitant's widow or widower, based on the report of death, when our records show the decedent elected to provide benefits for the applicant.

Comments are particularly invited on: whether this information is necessary for the proper performance of functions of OPM, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Approximately 22,000 RI 25-51 forms will be completed annually. We estimate it takes approximately 30 minutes to complete the form. The annual estimated burden is 11,000 hours.

For copies of this proposal, contact Mary Beth Smith-Toomey on (202) 606-8358, or E-mail to mbtoomey@opm.gov
