Title: Voluntary Children's Chemical Evaluation Program (VCCEP) (EPA ICR No. 2055.01). This is a request to establish a new collection.

Abstract: VCCEP is a voluntary program intended to provide data to enable the public to understand the potential health risks to children associated with certain chemical exposures. EPA has asked companies which manufacture and/or import 23 chemicals which have been found in human tissues and the environment to volunteer to sponsor their evaluation in VCCEP. VCCEP consists of three tiers which a sponsor may commit to separately. Thus far, EPA has received Tier 1 commitments for 20 chemicals. As part of their sponsorship, companies would submit commitment letters, collect and/or develop health effects and exposure information on their chemical(s), integrate that information in a risk assessment, and develop a "Data Needs Assessment." The Data Needs Assessment would discuss the need for additional data, which could be provided by the next tier, to fully characterize the risks the chemical may pose to children.

The information submitted by the sponsor will be evaluated by a group of scientific experts with extensive, relevant experience in toxicity testing and exposure evaluations, a Peer Consultation Group. This Group will forward its opinions to EPA and the sponsor(s) concerning the adequacy of the assessments and the need for development of any additional information to fully assess risks to children. EPA will consider the opinions of the Peer Consultation Group and announce whether additional higher tier information is needed. Sponsors and the public will have an opportunity to comment on EPA's decision concerning data needs. EPA will consider these comments and issue a final decision. If the final decision is that additional information is needed, sponsors will be asked to volunteer to provide the next tier of information. If additional information is not needed, the risk communication and, if necessary, risk management phases of the program will be initiated.

Responses to the collection of information are voluntary. Respondents may claim all or part of a notice confidential. EPA will disclose information that is covered by a claim

of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting burden for this collection of information is estimated to be about 520 hours per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal Agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: manufacturers, processors, importers, or distributors in commerce of certain chemical substances or mixtures who have volunteered to sponsor a chemical under the VCCEP.

Frequency of Collection: On occasion.

Estimated No. of Respondents: 23.

Estimated Total Annual Burden on Respondents: 154,332 hours.

Estimated Total Annual Costs: \$12,553,894.

Changes in Burden Estimates: This is a new ICR; therefore there is no change in burden estimates from that previously approved by OMB.

Dated: December 3, 2002.

Oscar Morales,

Director, Collection Strategies Division.
