

presenting either negligible risk or controlled risk for BSE is considered to present an undetermined risk. The list of those regions classified by APHIS as having either negligible risk or controlled risk can be accessed on the APHIS website at <https://www.aphis.usda.gov/aphis/ourfocus/animalhealth/animal-and-animal-product-import-information/animal-health-status-of-regions>. The list can also be obtained by writing to APHIS at Regionalization Evaluation Services, 4700 River Road Unit 38, Riverdale, MD 20737.

Under the regulations, APHIS may classify a region for BSE in one of two ways. One way is for regions that have not received a risk classification from the World Organization for Animal Health (WOAH)¹ to request classification by APHIS. The other way is for APHIS to concur with the classification given to a country or region by WOAH.

If WOAH has classified a region as either BSE negligible risk or BSE controlled risk, APHIS will seek information to support concurrence with the WOAH classification. This information may be publicly available information, or APHIS may request that regions supply the same information given to WOAH. APHIS will announce in the **Federal Register**, subject to public comment, its intent to concur with a WOAH classification.

In accordance with this process, we published a notice² in the **Federal Register** on June 25, 2021 (86 FR 33635, Docket No. APHIS 2021-0007), in which we announced our intent to concur with the WOAH risk classifications of the following regions:

- *Country of negligible risk for BSE:* Bolivia.
- *Zone of negligible risk for BSE:* United Kingdom's zone of Jersey.

We solicited comments on the notice for 60 days ending on August 24, 2021. We did not receive any comments by this date.

Therefore, in accordance with the regulations in § 92.5, we are announcing our decision to concur with the WOAH risk classifications for Bolivia and the United Kingdom's zone of Jersey.

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), the Office of Information and Regulatory Affairs designated this action as not a major rule, as defined by 5 U.S.C. 804(2).

¹ The World Organization for Animal Health internationally follows a British English spelling of "organisation" in its name; it was formerly the Office International des Epizooties, or OIE, but on May 28, 2022, the Organization announced that the acronym was changed from OIE to WOAH.

SUPPLEMENTARY INFORMATION:

Title: FNS Generic Clearance for the FNS Fast Track Clearance for the Collection of Routine Customer Feedback.

OMB Number: 0584-0611.

Expiration Date: September 30, 2022.

Type of Request: Revision of a currently approved information collection request.

Abstract: The proposed information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient and timely manner. By "qualitative feedback," we mean information that provides useful insights on perceptions and opinion but are not statistical surveys yielding quantitative results that can be generalized to the population. This feedback will continue

to: (1) provide insights into customer or stakeholder perceptions, experiences and expectations, (2) provide an early warning of issues with service and, (3) focus attention on areas where communication, training or changes in operations might improve delivery of products or services. This collection allows for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It also allows feedback to contribute directly to the improvement of program management.

The solicitation of feedback targets areas such as: timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses are assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will be unavailable.

The Agency will continue to only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
- Information gathered will be used only internally for general service
