SUPPLEMENTARY INFORMATION:

I. Call Report

The agencies propose to extend for three years, with revision, their information collections associated with the FFIEC 031, FFIEC 041, and FFIEC 051 Call Report.

Report Title: Consolidated Reports of Condition and Income (Call Report).

Form Number: FFIEC 031 (Consolidated Reports of Condition and Income for a Bank with Domestic and Foreign Offices), FFIEC 041 (Consolidated Reports of Condition and Income for a Bank with Domestic Offices Only), and FFIEC 051 (Consolidated Reports of Condition and Income for a Bank with Domestic Offices Only and Total Assets Less Than \$5 Billion).

Frequency of Response: Quarterly.

Affected Public: Business or other for-profit.

OCC

OMB Control No.: 1557–0081.

Estimated Number of Respondents: 984 national banks and federal savings associations.

Estimated Average Burden per Response: 41.36 burden hours per quarter to file.

Estimated Total Annual Burden: 162,793 burden hours to file.

Board

OMB Control No.: 7100–0036.

Estimated Number of Respondents: 709 State member banks.

Estimated Average Burden per Response: 45.31 burden hours per quarter to file.

Estimated Total Annual Burden: 128,499 burden hours to file.

FDIC

OMB Control No.: 3064–0052.

Estimated Number of Respondents: 2,825 insured State nonmember banks and State savings associations.

Estimated Average Burden per Response: 39.17 burden hours per quarter to file.

Estimated Total Annual Burden: 442,621 burden hours to file.

The estimated average burden hours collectively reflect the estimates for the FFIEC 031, the FFIEC 041, and the FFIEC 051 reports for each agency. When the estimates are calculated by type of report across the agencies, the estimated average burden hours per quarter are 86.25 (FFIEC 031), 55.56 (FFIEC 041), and 34.99 (FFIEC 051). The changes to the Call Report forms and instructions proposed in this notice would result in an estimated increase in burden hours per quarter for the FFIEC 031 of 0.13 hours. There would be no burden change for the FFIEC 041 or FFIEC 051. The estimated burden per response for the quarterly filings of the Call Report is an average that varies by agency because of differences in the composition of the institutions under each agency's supervision (for example, size distribution of institutions, types of activities in which they are engaged, and existence of foreign offices).

Type of Review: Extension and revision of currently approved collections. In addition to the proposed revisions discussed below, the Call Report is periodically updated to clarify instructional guidance and correct grammatical and typographical errors on the forms and instructions which are published on the FFIEC website.¹ These non-substantive updates may also be commented upon.

Legal Basis and Need for Collections

The Call Report information collections are mandatory: 12 U.S.C. 161 (national banks), 12 U.S.C. 324 (State member banks), 12 U.S.C. 1817 (insured State nonmember commercial and savings banks), and 12 U.S.C. 1464 (Federal and State savings associations). At present, except for selected data items and text, these information collections are not given confidential treatment.

Banks and savings associations submit Call Report data to the agencies each quarter for the agencies' use in monitoring the condition, performance, and risk profile of individual institutions and the industry as a whole. Call Report data serve a regulatory or public policy purpose by assisting the agencies in fulfilling their shared missions of ensuring the safety and soundness of financial institutions and

the financial system and protecting consumer financial rights, as well as agency-specific missions affecting federal and state-chartered institutions, such as conducting monetary policy, ensuring financial stability, and administering Federal deposit insurance. Call Reports are the source of the most current statistical data available for identifying areas of focus for on-site and off-site examinations. Among other purposes, the agencies use Call Report data in evaluating institutions' corporate applications, including interstate merger and acquisition applications for which the agencies are required by law to determine whether the resulting institution would control more than 10 percent of the total amount of deposits of insured depository institutions in the United States. Call Report data also are used to calculate the risk-based assessments for insured depository institutions.

II. Current Actions

A. Background

On June 27, 2025, the agencies requested comment on a notice of proposed rulemaking titled "Regulatory Capital Rule: Modifications to the Enhanced Supplementary Leverage Ratio Standards for U.S. Global Systemically Important Bank Holding Companies and Their Subsidiary Depository Institutions; Total Loss-Absorbing Capacity and Long-Term Debt Requirements for U.S. Global Systemically Important Bank Holding Companies" (capital proposal).² The capital proposal would modify the enhanced supplementary leverage ratio (eSLR) buffer standard applicable to U.S. top-tier bank holding companies identified as global systemically important bank holding companies (GSIBs), to equal 50 percent of the bank holding company's most recent method 1 GSIB surcharge under the Board's GSIB surcharge framework, rather than the current leverage buffer standard of two percent.³ The capital proposal would also modify the eSLR standard for depository institution subsidiaries of GSIBs from the current six percent "well capitalized" threshold under the prompt corrective action framework to an eSLR buffer standard equal to 50

percent of the most recent bank holding company GSIB's method 1 surcharge. In this notice, the agencies are proposing revisions to the Call Report applicable to depository institution subsidiaries of GSIBs consistent with the capital proposal.

Additionally, in the capital proposal, the Board sought comment on an additional potential modification of excluding Treasury securities that are reported as trading assets on the organizations' balance sheets and that are held at broker-dealer subsidiaries (and foreign equivalents thereof) that are not subsidiaries of a depository institution from the calculation of total leverage exposure for depository institution holding companies.

B. Call Report

For the FFIEC 031 version of the Call Report form, the agencies are proposing to add two new line items to Schedule RC-R, Regulatory Capital, Part I, Regulatory Capital Components and Ratios, to reflect leverage buffer requirements, as applicable, under the capital proposal. Specifically, the agencies would add new line items 56.a, "Leverage buffer standard," and 56.b, "Leverage buffer." These line items would be reported only by respondents that are depository institution subsidiaries of GSIBs. The agencies additionally would revise the Call Report instructions consistent with the capital proposal, including the additional criteria for a depository institution subsidiary of a GSIB to report on Schedule RC-R, Part I, line items 53, "Eligible retained income," and 54, "Distributions and discretionary bonus payments during the quarter," based on the depository institution's leverage buffer standard that would be reported in item 56.a and leverage buffer that would be reported in item 56.b.

III. Timing

The proposed revisions to the Call Report forms and instructions are proposed to become effective with the first report date following the effective date of the capital proposal, if finalized. In addition, the agencies plan to revise the reporting changes proposed in this notice to align with any changes made to any final version of the capital proposal. The contents of any final version of the capital proposal may inform the agencies as to whether they should propose revisions to other FFIEC or Board report forms, such as the Regulatory Capital Reporting for Institutions Subject to the Advanced Capital Adequacy Framework (FFIEC 101).

³ The Board's capital rule requires a U.S. GSIB to calculate its GSIB risk-based surcharge in two ways, known as "method 1" and "method 2," and apply the higher of the two results. See 12 CFR 217.402.

¹ <https://www.ffiec.gov/resources/reporting-forms>.

The agencies invite comment on any difficulties that institutions would expect to encounter in implementing the systems changes necessary to accommodate the proposed revisions to the Call Report consistent with this effective date.

IV. Request for Comment

Public comment is requested on all aspects of this joint notice. Comment is specifically invited on:

(a) Whether the proposed revisions to the collections of information that are the subject of this notice are necessary for the proper performance of the agencies' functions, including whether the information has practical utility;

(b) The accuracy of the agencies' estimates of the burden of the information collections as they are proposed to be revised, including the validity of the methodology and assumptions used;
