DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

October 26, 2020.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by November 30, 2020 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Food and Nutrition Service

Title: Supplemental Nutrition Assistance Program Regulations, Part 275—Quality Control.

OMB Control Number: 0584–0303.

Summary of Collection: Section 16 of the Food and Nutrition Act of 2008, provides the legislative basis for the operation of the Supplemental Nutrition Assistance Program (SNAP) Quality Control system. The Food and Nutrition Service (FNS), as administrator of the SNAP, requires each State agency to implement a quality control system to provide basis for determining each State agency's error rates through review of a sample of SNAP cases. Each State agency is responsible for the design and selection of the quality control samples and must submit a quality control sampling plan for approval to FNS. However, State agencies are required to maintain case records for three years to ensure compliance with provisions of the Food and Nutrition Act of 2008. In addition, the date of an administrative closure could cause the case to be kept more than three years after the initial case review. This particularly impacts the arbitration component of this collection.

Need and Use of the Information: The quality control sampling plan is necessary for FNS to monitor State operations and is essential to the determination of a State agency's error rate and corresponding entitlement to increased Federal share of its administrative costs or liability for sanctions.

Description of Respondents: State, Local, or Tribal Government; Federal Government.

Number of Respondents: 53.

Frequency of Responses: Recordkeeping; Reporting: On occasion; Annually.

Total Burden Hours: 2,136.

Levi S. Harrell,

Departmental Information Collection Clearance Officer.

SUPPLEMENTARY INFORMATION:

Title: Self-Certification Medical Statement.

OMB Control Number: 0579-0196.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Marketing and Regulatory Programs (MRP) of the U.S. Department of Agriculture facilitate the domestic and international marketing of U.S. agricultural products and protect the health of domestic animal and plant resources. Resource management and administrative services, including human resources management, for MRP agencies are provided by the MRP Business Services (MRPBS) unit of the Animal and Plant Health Inspection Service (APHIS).

MRP agencies are authorized by 5 CFR 339 and 29 CFR 1630 to obtain medical information from applicants and employees for positions that have approved medical standards due to duties that are arduous or hazardous, or require a certain level of health status or fitness. These agencies have positions with duties that extend beyond sedentary and require specific medical standards and/or physical requirements to be performed successfully and safely. The medical qualifications standards for appointment to the covered positions listed in the MRP Medical Examination Requirements Charts are justified on the basis that the duties are arduous or hazardous and require a certain level of health status and fitness, and the nature of the positions involves a high degree of responsibility toward the public.

This information collection is necessary for making a preliminary determination regarding a candidate's physical fitness and ability to perform the duties of a covered position. MRP uses the Self-Certification Medical Statement for positions requiring verification of fitness and ability for duty. Applicants may also submit a request for waiver of standards and requirements. Inability to collect this information would adversely affect the MRP agencies' ability to make employment decisions and determinations regarding an applicant's physical fitness to safely and efficiently perform assigned duties.

We are asking the Office of Management and Budget (OMB) to approve our use of these information

collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.167 hours per response.

Respondents: Private citizens.

Estimated annual number of respondents: 1,826.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 1,827.

Estimated total annual burden on respondents: 306 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 23rd day of October 2020.

Mark Davidson,

Acting Administrator, Animal and Plant Health Inspection Service.
