SUPPLEMENTARY INFORMATION:

I. Abstract

Regulations at 50 CFR 665, Subpart C, require that all participants (including vessel owners, operators, and crew) in the boat-based non-commercial bottomfish fishery in the Exclusive Economic Zone around the main Hawaiian Islands obtain a federal bottomfish permit. This collection of information is needed for permit issuance, to identify actual or potential participants in the fishery, determine

qualifications for permits, and to help measure the impacts of management controls on the participants in the fishery. The permit program is also an effective tool in the enforcement of fishery regulations and serves as a link between the National Marine Fisheries Service (NMFS) and fishermen.

Regulations at 50 CFR 665 require that all vessel owners or operators in this fishery are required to submit a completed logbook form at the completion of each fishing trip. These logbook reporting sheets document the species and amount of species caught during the trip. The reporting requirements are crucial to ensure that NMFS and the Western Pacific Fishery Management Council (Council) will be able to monitor the fishery and have fishery-dependent information to develop an Annual Catch Limit for the fishery, evaluate the effectiveness of management measures, determine whether changes in fishery management programs are necessary, and estimate the impacts and implications of alternative management measures.

II. Method of Collection

Documents may be submitted by mail or online.
