Given the robust competition for volume among options markets, many of which offer the same products, implementing programs to attract order flow similar to the ones being proposed in this filing, are consistent with the above-mentioned goals of the Act. The Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues. In such an environment, the Exchange must continually review, and consider adjusting, its fees and credits to remain competitive with other exchanges. For the reasons described above, the Exchange believes that the proposed rule change reflects this competitive environment.
