SUPPLEMENTARY INFORMATION:

Title: Customer/Stakeholder Satisfaction Surveys for the National Animal Health Monitoring System and the National Veterinary Services Laboratories.

OMB Control Number: 0579–0339.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Secretary of Agriculture is authorized to protect the health of the livestock, poultry, and aquaculture populations in the United States by preventing the introduction and interstate spread of serious diseases and pests of livestock and for eradicating such diseases from the United States when feasible. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS).

In connection with this mission, APHIS operates the National Animal Health Monitoring System (NAHMS), which collects, on a national basis, statistically valid and scientifically sound data on the prevalence and economic importance of livestock, poultry, and aquaculture disease risk factors.

NAHMS national studies are a collaborative industry and government initiative that helps determine the most effective means of preventing and controlling diseases of livestock, poultry, and aquaculture. APHIS is the only agency responsible for collecting national data on livestock, poultry, and aquaculture health. Participating in any NAHMS study (including these surveys) is voluntary.

The National Veterinary Services Laboratories (NVSL) assists NAHMS by providing testing services for many of the NAHMS projects. Primary functions of NVSL also include providing diagnostic support for domestic diseases, potential foreign animal diseases, import/export programs, disease surveillance, and disease eradication efforts. The efforts of NVSL are an essential part of preventing and controlling diseases of livestock, poultry, and aquaculture.

Information from the NAHMS studies is disseminated to and used by producers, animal health officials, private practitioners, animal industry groups, policy makers, public health officials, media, and educational institutions to improve the health and welfare, quality, and marketability of the livestock, poultry, and aquaculture in the United States.

The purpose of customer/stakeholder satisfaction surveys is:

- To gather information from producers and other information users on the usefulness of studies and reports;
- To minimize producer burden;
- To increase response rates;
- To improve report quality and relevance to producers' and stakeholders' needs; and

- To improve laboratory performance.

Producers and stakeholders participate in the NAHMS program, utilize information from NVSL, and/or read NAHMS reports. Therefore, administration of customer/stakeholder satisfaction surveys will benefit the study process and provide NAHMS and NVSL with information to make the programs more effective with timely and relevant information.

NAHMS staff plan to obtain feedback from recipients of the U.S. Animal Health Report, NAHMS Study Participant Surveys, and NAHMS Descriptive Reports. Feedback from recipients will be used to improve the U.S. Animal Health Report and the NAHMS Descriptive Reports and to evaluate customer/stakeholder satisfaction in an effort to increase participation rates for NAHMS studies. NVSL staff plan to obtain feedback using annual NVSL Performance Surveys. The NVSL surveys will help NVSL monitor performance.

We are asking the Office of Management and Budget (OMB) to approve our use of these information

collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.243 hours per response.

Respondents: Livestock producers and bison, cervid, equid, and dairy farmers; information users; NAHMS Descriptive Report recipients; U.S. Animal Health Report recipients; practicing veterinarians; animal importers/exporters; and State and independent laboratories.

Estimated annual number of respondents: 18,500.

Estimated annual number of responses per respondent: 0.278.

Estimated annual number of responses: 5,150.

Estimated total annual burden on respondents: 1,236 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 20th day of May 2015.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

Sunshine Act Meeting

TIME AND DATE: June 10, 2015, 9 a.m.–5 p.m. EDT.

PLACE: U.S. Chemical Safety Board, 2175 K St. NW., 4th Floor Conference Room, Washington, DC 20037.

STATUS: Open to the public.

MATTERS TO BE CONSIDERED: The Chemical Safety and Hazard Investigation Board (CSB) will convene a public meeting on June 10, 2015, starting at 9 a.m. at the CSB's headquarters, located at 2175 K St. NW., 4th Floor Conference Room, Washington, DC 20037. The first part of the public meeting (9 a.m. to 12:30 p.m.) will focus on a discussion with stakeholders and provide an opportunity for public comment regarding emerging safety issues and CSB's investigations and recommendations programs. The morning agenda may also include Board discussion and vote(s) on motions related to Board governance when there is a vacancy in the Chairperson position.

In the afternoon part of the public meeting (starting at 1:30 p.m.), the Board will consider and may vote on the final report of the CSB's investigation into the 2009 incident at the CAPECO petroleum tank farm in Puerto Rico. Following the staff presentation, the Board will hear comments from the public. All staff presentations are preliminary and are intended solely to allow the Board to consider in a public forum the issues and factors involved in the case. No factual analyses, conclusions, or findings presented by staff should be considered final. At the conclusion of the staff presentation, the Board may vote on the final product(s).

Additional Information

The meeting is free and open to the public. If you require a translator or interpreter, please notify the individual listed below as the "Contact Person for Further Information," at least three business days prior to the meeting.

The CSB is an independent federal agency charged with investigating accidents and hazards that result, or may result, in the catastrophic release of extremely hazardous substances. The agency's Board Members are appointed by the President and confirmed by the Senate. CSB investigations look into all aspects of chemical accidents and hazards, including physical causes such as equipment failure as well as inadequacies in regulations, industry

standards, and safety management systems.

Public Comment

The time provided for public statements will depend upon the number of people who wish to speak. Speakers should assume that their presentations will be limited to five minutes or less, but commenters may submit written statements for the record.

Contact Person for Further Information

Hillary J. Cohen, Communications Manager, hillary.cohen@csb.gov or (202) 446-8094. Further information about this public meeting can be found on the CSB Web site at: www.csb.gov.

Dated: May 21, 2015.

Mark Griffon,
Board Member.
