

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) Coastal Pelagic Species Management Team (CPSMT) and Coastal Pelagic Species Advisory Subpanel (CPSAS) will hold public meetings.

DATES: The CPSMT meeting will be held Wednesday, February 28, 2024, from 1 p.m. to 4 p.m., Pacific standard time or until business for the day has been completed.

The CPSAS meeting will be held Monday, March 4, 2024, from 9 a.m. to 12 p.m., Pacific standard time or until business for the day has been completed.

ADDRESSES: These meetings will be held online. Specific meeting information, including directions on how to join the meeting and system requirements will be provided in the meeting announcement on the Pacific Council's website (see www.pcouncil.org). You may send an email to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov) or contact him at (503) 820-2412 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Jessi Doeringhaus, Staff Officer, Pacific Council; telephone: (503) 820-2415.

SUPPLEMENTARY INFORMATION: The primary purpose of the CPSMT and CPSAS online meetings are to discuss and develop work products and recommendations for the Pacific Council's March 2024 meeting. Topics will include reviewing the California Current Ecosystem report and fishery ecosystem plan initiatives. Other items on the Pacific Council's March agenda may be discussed as well. The meeting agendas will be available on the Pacific Council's website in advance of the meetings. No management actions will be decided by the CPSMT or CPSAS. CPSMT and CPSAS recommendations will be considered by the Pacific Council at their March Council meetings.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of

the intent to take final action to address the emergency.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov; (503) 820-2412) at least 10 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 7, 2024.

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; NMFS Observer Programs' Information That Can Be Gathered Only Through Questions; Correction

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection; correction.

SUMMARY: On December 19, 2023, the Department of Commerce, published a 30-day public comment period notice in the **Federal Register** for an information collection entitled "NMFS Observer Programs' Information That can be Gathered Only Through Questions." This document referenced incomplete information in the Needs and Uses section, and Commerce hereby issues a correction notice as required by the Paperwork Reduction Act of 1995.

ADDRESSES: This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648-0593.

FOR FURTHER INFORMATION CONTACT: For additional information concerning this correction, contact Adrienne Thomas, NOAA PRA Officer, at NOAA.PRA@noaa.gov.

SUPPLEMENTARY INFORMATION:

Correction

In the **Federal Register** of December 19, 2023 in FR Doc. 2023-27834, on page 87753, in the third column, correct the third paragraph of the "Needs and Uses" section to read:

The information collected will be used: (1) to monitor catch and bycatch in federally managed commercial fisheries; (2) to understand the population status and trends of fish stocks and protected species, as well as the interactions between them; (3) to determine the quantity and distribution of net benefits derived from living marine resources; (4) to predict the biological, ecological, and economic impacts of existing management action and proposed management options; (5) to ensure that the observer programs can safely and efficiently collect the information required for the previous four uses; and (6) for criminal and/or civil investigations by law enforcement agencies. In particular, these biological and economic data collection programs contribute to legally mandated analyses required under the Magnuson-Stevens Fishery Conservation and Management Act (MSA), the Endangered Species Act (ESA), the Marine Mammal Protection Act (MMPA), the National Environmental Policy Act (NEPA), the Regulatory Flexibility Act (RFA), Executive Order 12866 (E.O. 12866), as well as a variety of state statutes. The confidentiality of the data will be protected as required by the MSA, section 402(b).

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

Magnuson-Stevens Act Provisions; Fisheries of the Northeastern United States; Northeast Multispecies Fishery; Approved Monitoring Service Providers

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of approved Northeast multispecies at-sea and electronic monitoring service providers for fishing year 2024.

SUMMARY: NMFS has approved nine companies to provide Northeast multispecies sector at-sea catch monitoring (ASM) and/or electronic catch monitoring (EM) services in fishing year 2024. Regulations implementing the Northeast Multispecies Fishery Management Plan require ASM and EM companies to meet service provider performance standards to be approved by NMFS to provide catch monitoring services to sectors. This action approves service providers that sectors may contract with for catch monitoring services for fishing year 2024.

DATES: Northeast multispecies at-sea and electronic monitoring service provider approvals are effective May 1, 2024, through April 30, 2025.

ADDRESSES: The list of NMFS-approved sector monitoring service providers is available at: <https://www.fisheries.noaa.gov/resource/data/observer-providers-northeast-and-mid-atlantic-programs>.

FOR FURTHER INFORMATION CONTACT: Heather Nelson, Fishery Management Specialist, (808) 725-5179, email Heather.Nelson@noaa.gov.

SUPPLEMENTARY INFORMATION: The Northeast Multispecies Fishery Management Plan includes a requirement for industry-funded monitoring of catch by sector vessels. NMFS approves independent third-party service providers with which sectors may contract to provide ASM and/or EM services to their vessels. NMFS requires full applications for approval from ASM and EM companies that are not currently approved to be a

service provider. Previously approved ASM and EM companies are not required to submit a full application to maintain their approval status if they continue to meet all service provider performance standards and submit required updated information annually. The required updated information to maintain approval includes an updated Emergency Action Plan, evidence of adequate insurance coverage, and, if applicable, any updates to staffing or operations. Regulations at 50 CFR 648.11(h) describe the criteria for approval of ASM and EM service provider applications. NMFS approves service providers based on: (1) Completeness and sufficiency of applications; and (2) determination of the applicant's ability to meet the performance requirements of a sector monitoring service provider. Once approved, service providers must meet specified performance requirements outlined in § 648.11(h)(5) and (6), including required coverage levels, in order to maintain eligibility. NMFS must notify service providers, in writing, if NMFS withdraws approval for any reason.

Approved Monitoring Service Providers

On September 28, 2023, NMFS announced an opportunity for new monitoring companies to apply for approval to provide ASM and/or EM services in fishing year 2024, and an opportunity for currently approved providers to submit updated documentation to maintain their approval status in fishing year 2024. NMFS previously approved nine companies to provide catch monitoring services to the Northeast multispecies sectors in fishing year 2023. Five of the nine approved companies provide both ASM and EM services: A.I.S., Inc.; East West Technical Services, LLC; Fathom Research, LLC; New England Marine Monitoring; and Saltwater, Inc. The

other four approved companies provide EM services only: Archipelago Marine Research, Ltd.; Flywire Cameras; Satlink US, LLC; and Teem Fish Monitoring, Inc.

All currently approved ASM and EM companies continue to meet all service provider performance standards, submitted all required documentation, and are therefore approved service providers for fishing year 2024. We did not receive any new ASM or EM provider applications. Table 1 includes the revised list of approved monitoring service providers.

NMFS has the authority to remove a service provider from its approved status in accordance with the regulations at § 648.11(h)(7). A monitoring service provider that fails to meet the requirements, conditions, and responsibilities will be notified in writing that it is subject to removal from the list of approved monitoring service providers. Withdrawing approval of a service provider will be based on an evaluation of the service providers ability to meet the third-party catch monitoring provider standards in § 648.11(h)(5) and (6). NMFS will closely monitor the performance of approved service providers, and will withdraw approval during the current approval term if it determines performance standards are not being met.

NMFS did not solicit applications to provide dockside monitoring (DSM) services related to the maximized retention EM program. NMFS is currently evaluating whether to operate the maximized retention EM program in fishing year 2024. NMFS will continue to administer the DSM program if it is operational in fishing year 2024. In future fishing years, NMFS intends to solicit applications to be an approved DSM provider when the DSM program transitions to industry-funding.
