

Board's FR Y-14A for covered institutions with total consolidated assets of \$250 billion or more.

The OCC's changes include only limited updates to reflect the changes made by the Board, and the OCC reporting forms will substantially resemble the forms used by the OCC last year. Many of the changes made by the Board are inapplicable to OCC-regulated institutions and involve new items that would not be collected by the OCC under the changes. The OCC's changes include the minimal adjustments necessary to align line items with placement on the 2022 FR Y-14A. The OCC is also changing the description of covered institutions required to complete the trading and counterparty credit risk (CCR) sub-schedules under the Global Market Shock (GMS) scenario to more closely align with the Board's description. The OCC does not expect these changes to impact the group of banks that have been required to submit under the GMS in prior years. The OCC's new reporting forms and instructions are available on the OCC's website at <https://www.occ.treas.gov/publications-and-resources/forms/dodd-frank-act-stress-test/index-dodd-frank-act-stress-test.html>.

*Type of Review:* Revision. *Affected Public:* Businesses or other for-profit.

*Estimated Number of Respondents:* 4 annually and 4 biennially. *Estimated Total Annual Burden:* 3,558 hours.

The OCC believes that the systems that covered institutions use to prepare the FR Y-14 reporting templates and submit to the Board will also be used to prepare the reporting templates described in this notice. On December 5, 2022, the OCC published a notice for 60 days of comment concerning this collection as revised, 87 FR 74470. No comments were received. Comments continue to be invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including whether the information has practical utility; (b) The accuracy of the OCC's estimate of the burden of the collection of information; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; (d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) Estimates of capital or start-up costs and costs of operation,

maintenance, and purchase of services to provide information.
