

practical utility? Practical utility is defined as the actual usefulness of information to or for an agency, taking into account its accuracy, adequacy, reliability, timeliness, and the agency's ability to process the information it collects.

B. What enhancements can be made to the quality, utility, and clarity of the information to be collected?

As a Potential Respondent

A. Are the Form EIA-28 instructions and definitions clear and sufficient? If not, which instructions require clarification?

B. Can information be submitted by the due date?

C. Public reporting burden for the Form EIA-28 collection is currently estimated to average 449 hours per response. The estimated burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose and provide the information. With regard to the new schedules for electric power and downstream natural gas, EIA is estimating those schedules will require an additional one-time burden in 2004 of between 150 to 300 hours per affected respondent to modify existing information systems to generate the additional information. After the systems are modified, EIA is estimating the average increase in reporting burden for the EIA-28 will be 186 hours annually for companies having downstream natural gas activities and 233 hours annually for companies having electric power activities. For those companies having both business activities, the average increase in burden is estimated at 419 hours annually. However, most FRS respondent companies will not be affected as they have no activities in electric power and/or downstream natural gas and thus will incur no additional burden for reporting.

Please comment on (1) the accuracy of the agency's estimate and (2) how the agency could minimize the burden of collecting this information, including the use of information technology.

D. The agency estimates respondents will incur no additional costs for reporting other than the hours required to complete the collection. What is the estimated: (1) Total dollar amount annualized for capital and start-up costs; and (2) recurring annual costs of operation and maintenance, and purchase of services associated with this data collection?

E. Does any other Federal, State, or local agency collect similar information? If so, specify the agency, the data

element(s), and the method(s) of collection.

As a Potential User

A. What actions could be taken to help ensure and maximize the quality, objectivity, utility, and integrity of the information disseminated?

B. Is the information useful at the levels of detail indicated on the form?

C. For what purpose(s) would the information be used? Be specific.

D. Are there alternate sources for the information and are they useful? If so, what are their deficiencies and/or strengths?

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of the form. They also will become a matter of public record.

[Docket Nos. CP01-76-004 and CP01-77-004]

Cove Point LNG Limited Partnership; Notice of Supplemental Compliance Filing

February 7, 2003.

Take notice that on February 5, 2003, Dominion Cove Point LNG Limited Partnership (DCP) filed a supplement to the compliance filing made in the captioned proceedings on January 13, 2003.

DCP explains that the prior filing anticipated the reactivation of its LNG-import facilities on May 1, 2003, and that it now believes that the facilities will not be in-service until June 2003.

Accordingly, DCP is amending its January 13, 2003, filing to request that the tariff sheets previously filed be made effective one month later than previously requested. That is, DCP proposes an effective date of June 1, 2003, for the bulk of the sheets, and March 1, 2003, for Original Sheet Nos. 18C.01, 18D and 18F. In addition, DCP now requests that Original Sheet No. 18A.01. also become effective on March 1, 2003. Furthermore, DCP proposes to correct typographical errors on First Revised Sheet Nos. 21 and 122 and to include a clarifying numbering change on Second Revised Sheet Nos. 136 and 137. Accordingly, DCP submits the following new tariff sheets with its filing:

Substitute First Revised Sheet No. 21
Substitute First Revised Sheet No. 122
Substitute Second Revised Sheet No. 136
Substitute Second Revised Sheet No. 137

Cove Point states that copies of its letter of transmittal and enclosures have been served upon Cove Point's customers and interested state commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission,

888 First Street, NE., Washington, DC 20426, in accordance with Section 385.211 of the Commission's rules and regulations. All such protests must be filed in accordance with section 154.210 of the Commission's regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or TTY, contact (202) 502-8659. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

Protest Date: February 18, 2003.
