

Title: 0917–0014, “Indian Health Service Loan Repayment Program.”

Type of Information Collection Request: 3-year extension approval of this information collection.

OMB Control Number: 0917–0014.

Forms: Educational and Professional Background, Financial Information, and General Applicant Information (*i.e.*, all forms are part of the LRP application). The LRP application is available in an electronically fillable and fileable format.

Need and Use of Information Collection: The IHS LRP identifies health professionals with pre-existing financial obligations for education expenses that meet program criteria and who are qualified and willing to serve at, often remote, IHS health care facilities. Under the program, eligible health professionals sign a contract

through which the IHS agrees to repay part or all of their indebtedness in exchange for an initial 2-year service commitment to practice fulltime at an eligible Indian health program. This program is necessary to augment the critically low health professional staff at IHS health care facilities.

Eligible health professionals wishing to have their health education loans repaid may apply to the IHS LRP. A 2-year contract obligation is signed by both parties, and the individual agrees to work at an eligible Indian health program location and provide health services to American Indian and Alaska Native individuals.

The information collected via the online application from individuals is analyzed and a score is given to each applicant. This score will determine which applicants will be awarded each

fiscal year. The administrative scoring system assigns a score to the geographic location according to vacancy rates for that fiscal year and also considers whether the location is in an isolated area. When an applicant accepts employment at a location, the applicant in turn “picks-up” the score of that location.

Status of the Proposed Information Collection: Renewal of a current collection.

Affected Public: Individuals and households.

Type of Respondents: Individuals.

The table below provides: Types of data collection instruments, estimated number of respondents, number of responses per respondent, average burden hour per response, and total annual burden hour(s).

ESTIMATED BURDEN HOURS

Data collection instrument(s)	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total annual responses (in hours)
LRP Application	1,999	1	1.5	2,998.5
Total	1,999	1	1.5	2,998.5

Capital Costs, Operating Costs, and Maintenance Costs are reported in the Tab B Supporting Statement.

P. Benjamin Smith,

Acting Director, Indian Health Service.
